# SENIOR STUDIES GUIDE

2018-2019

**Northern Beaches Secondary College**

INNOVATION EXCELLENCE CHOICE

Northern Beaches Secondary College, the largest school in New South Wales, is spread over five individual campuses and offers the collective resources and teaching expertise to support, nurture and extend each and every student towards achieving excellence. With over 300 staff and around 3 900 students, we are able to offer our community a selection of local campus options, with the bonus of additional collective college educational opportunities.

The Northern Beaches Secondary College provides specialist education for single sex girls' education, single sex boys' education, co-education, selective education and specialist senior education (Years 11 and 12).

Every Northern Beaches Secondary College campus offers a shared senior curriculum, student leadership opportunities, extensive co-curricular activities and excellent facilities and resources. All campuses have highly qualified and respected teaching staff, led by experienced school leadership teams.

I encourage you to read through the NBSC Senior Studies Guide and explore the wide range of courses offered across the NBSC. Year 11 and 12 students can tailor an individual senior curriculum which suits their particular needs by choosing from more than 100 HSC courses, including specialist courses offered at Northern Sydney Institute TAFE NSW.

The Northern Beaches Secondary College offers students the opportunity to participate in an innovative educational environment, achieve excellent educational outcomes and have unparalleled breadth of curriculum choice.

*Neil Worsley*

College Principal

# Introduction

The NBSC Senior Studies Guide has been produced to assist each student make the most appropriate and informed subject choices. The breadth of senior courses on offer across the five campuses enables students to tailor curriculum pathways to suit their individual needs. In addition, students are able to access a wide variety of specialist Northern Sydney Institute TAFE courses.

AQF	Australian Qualifications Framework
ATAR	Australian Tertiary Admission Rank
NESA	NSW Education Standards Authority
HSC	Higher School Certificate
NBSC	Northern Beaches Secondary College
TAFE	Technical and Further Education
TVET	TAFE Vocation Education and Training

# Studying for the Higher School Certificate

## The Higher School Certificate (HSC)

The Higher School Certificate (HSC) is the highest educational award you can gain in New South Wales schools. The HSC:

- is an internationally recognised credential
- provides a strong foundation for the future
- is standards based. Students receive HSC marks that indicate the standards they have achieved.

In order to gain a Higher School Certificate, students must:

- complete a minimum of 12 units of Preliminary (Year 11) courses and 10 units of HSC courses. All courses in the HSC have a unit value. Most courses are 2 units.
- satisfactorily complete the Preliminary (Year 11) course (usually studied during Year 11) before they are eligible to commence the corresponding HSC course (usually studied during Year 12).
- complete one course of English - the only compulsory subject for the HSC.
- have a satisfactory record of attendance and application in each course
- satisfactorily undertake the school's assessment program in each course
- complete a sufficient number of Preliminary and HSC courses within five examination years.

Preliminary (Year 11) courses are usually taken in Year 11 and do not have an external examination. They are undertaken for three terms.

HSC (Year 12) courses are usually taken in Year 12 and end with an HSC examination. HSC courses usually commence in Term 4 of Year 11.

Students must complete the Preliminary (Year 11) course in a subject before undertaking the HSC (Year 12) course in that subject. In some circumstances both the Preliminary and HSC component of a subject can be studied in one year.

Vocational Education and Training (VET) courses are not classified as Preliminary or HSC and can be studied in either year.

### **SNAPSHOT: Requirements for the HSC**

Both the Preliminary and HSC Courses must include:

- At least 6 units of Board Developed Courses, including at least 2 units of English
- At least 3 courses of 2 units value or greater
- At least 4 subjects (including English)
- At most, 6 units of courses in Science can count towards HSC eligibility

Full details of the NSW Education Standards Authority (NESA) HSC Rules can be found in the Assessment, Certification and Examination (ACE) Manual. The manual is also available from your campus or on the NESA website.

## **HSC courses**

There are two main types of courses students study for the HSC - Board Developed and Board Endorsed.

### **Board Developed Courses (BDC)**

These are courses for which the NESA develops a syllabus setting out the aims, objectives, outcomes, structure and content. They are set and externally examined by the NESA. Examples of courses include the areas of English, Mathematics, Science, Technology, Creative Arts, Personal Development, Health and Physical Education, Human Society and its Environment, Languages and Vocational Education and Training (VET) Curriculum Frameworks. These courses may contribute to the calculation of Australian Tertiary Admission Rank (ATAR). However, only one VET Framework course can be used in the calculation of the ATAR.

Life Skills courses are Board Developed courses that are specially designed to meet the needs of students within the context of an individual transition-planning process. They are not examined externally and do not contribute to the ATAR.

### **Board Endorsed Courses (BEC)**

These include courses that may have been developed by schools, TAFE or universities. They contribute to the HSC but do not contribute to the calculation of the ATAR. There are two types of Board Endorsed Courses - Content Endorsed and locally developed.

Most of the courses available at NBSC are Content Endorsed Courses that have syllabuses endorsed by the NESA to cater for areas of special interest. Some courses delivered by TAFE NSW are locally designed courses that have been approved by the NESA.

All Board Endorsed Courses count towards the Higher School Certificate and are listed on the Record of Achievement.

<b>SNAPSHOT: Difference between Board Developed and Board Endorsed Courses</b>	
Board Developed Course (BDC)	Board Endorsed Course (BEC)
<ul style="list-style-type: none"> <li>• HSC exam</li> <li>• counts towards HSC</li> <li>• may count towards the ATAR*</li> <li>• includes some VET** courses</li> <li>• includes Life Skills courses</li> </ul>	<ul style="list-style-type: none"> <li>• no HSC exam – school-based assessment used</li> <li>• counts towards HSC</li> <li>• cannot contribute to the ATAR</li> <li>• includes some VET courses</li> </ul>
<p>* <i>Australian Tertiary Admission Rank</i>  ** <i>Vocational Education and Training</i></p>	

The NBSC Senior Studies Guide provides more detail about the courses available at NBSC and a description of each one on offer.

# Course Patterns

SNAPSHOT: HSC Course Structure	
<ul style="list-style-type: none"> <li>All courses in the HSC have a unit value</li> <li>All 2-unit HSC courses have equal status</li> </ul>	
<ul style="list-style-type: none"> <li>Most courses are 2 units</li> <li>2 units = 4 hours of instruction per week</li> <li>120 hours per year = 100 marks</li> </ul>	<p>Some courses are 1 unit For example: Extension study courses *</p> <ul style="list-style-type: none"> <li>1 unit = 2 hours of instruction per week</li> <li>60 hours per year = 50 marks</li> </ul>
VET courses may be counted as either Preliminary or HSC courses	

<p><b>SNAPSHOT: Extension Courses</b></p> <p>Extension courses are designed to build on the content of the 2 unit course and require students to develop greater competence and understanding.</p>	<p>Preliminary Extension Courses:</p> <ul style="list-style-type: none"> <li>English</li> <li>Mathematics</li> </ul>
	<p>HSC Extension Courses:</p> <ul style="list-style-type: none"> <li>English 1 and 2</li> <li>Mathematics 1 and 2</li> <li>History</li> <li>Music</li> <li>Some Languages</li> <li>Some Vocational Education &amp; Training (VET) courses</li> </ul>

## Requirements for the HSC

Both the Preliminary and HSC Courses must include:

- At least 6 units of Board Developed Courses, including at least 2 units of English
- At least 3 courses of 2 units value or greater
- At least 4 subjects (including English)
- At most, 6 units of courses in Science can count towards HSC eligibility

No more than 6 units of Science courses can be studied in any one year.

Oral, practical and project work required for specific courses and the assessment requirements for each course must be completed.

A serious attempt at the required HSC examinations must be made.

SNAPSHOT: HSC Requirements	
<b>Preliminary Course</b> <ul style="list-style-type: none"><li>• minimum of 12 units</li><li>• Year 11, three terms of study</li></ul>	<b>HSC Course</b> <ul style="list-style-type: none"><li>• minimum of 10 units</li><li>• in Year 12, four terms of study</li><li>• commences in Term 4 of Year 11</li></ul>
Students must satisfactorily complete the Preliminary course before commencing the corresponding HSC course	

### Compulsory Subject: English

English is the only compulsory HSC subject. English Choices include:

- English Advanced (with options to undertake extension study)
  - Preliminary Extension English
  - HSC Extension 1
  - HSC Extension 2
- English Standard
- English as an Additional Language or Dialect (EAL/D)
- English Studies – Content Endorsed Course (optional ATAR)

Students enrolled in English Studies have the option to sit the HSC exam if they want an ATAR. If they do not sit for the exam they will not receive an ATAR.

## **Accumulation of the Higher School Certificate**

Students may accumulate an HSC over a five year period. The five year period will commence in the first year a student attempts an HSC examination or completes an HSC VET course. This is often referred to as 'pathways', that is: completing the HSC over more than 2 years.

Students accumulating an HSC will receive a Results Notice for each calendar year of study. The cumulative record will record all Preliminary and HSC courses satisfactorily completed, including repeat attempts. The mark of the final attempt in a particular course is the mark used for the calculation of the ATAR.

## **Acceleration**

Students may undertake Preliminary or HSC courses in advance of their usual cohort. Decisions about acceleration will be made by Campus Principals. Accelerants may be able to undertake additional units for the HSC or undertake further study at TAFE NSW or university while still at school.

## **Vocational Education and Training (VET)**

Vocational Education & Training (VET) courses teach industry specific skills that are relevant to future study and employment. These are competency based and enable students to gain both HSC qualifications and Australian Qualifications Framework (AQF) accreditation. The AQF qualifications are recognised by industry and employers throughout Australia and give students advanced standing in related study at TAFE NSW and private registered providers. A workplace component is a compulsory part of all VET Framework courses.

There are thirteen VET Curriculum Framework courses that are based on Industry Training Packages. All courses are Board Developed (Category B). Students must study the 240 hour course and undertake the optional written examination to have the course contribute to the ATAR calculation.

The VET Curriculum Framework courses available at NBSC or a range of TAFE NSW Category B:

Northern Beaches Secondary College	Northern Sydney Institute, TAFE NSW
<ul style="list-style-type: none"> <li>• Business Services</li> <li>• Construction</li> <li>• Entertainment Industry</li> <li>• Hospitality: Food and Beverage Stream</li> <li>• Hospitality: Kitchen Operations</li> <li>• Information and Digital Technology</li> <li>• Metal and Engineering</li> </ul>	<ul style="list-style-type: none"> <li>• Automotive</li> <li>• Financial Services (Accounting)</li> <li>• Human Services (Nursing)</li> <li>• Tourism Travel and Events</li> </ul>

Other VET courses are Board Endorsed courses which are usually delivered at TAFE NSW (referred to as TVET courses). These courses have no external examination and do not contribute to the ATAR. Examples include Children's Services, Community Services, Design, Computer Assembly and Repair and Property Services (Real Estate).

## Course Delivery

### Northern Beaches Secondary College (NBSC) Campuses

NBSC students have a wide variety of courses and subject combinations from which to choose their senior studies program. Most students will study all their courses at one campus. However, because of the coordination of timetables across all campuses, it is possible to access some courses on other campuses of the NBSC. This enables students to have a much wider choice of subjects than is possible on any single site.

These 'shared' courses run each week in either:

- single blocks of time (4 hours) on Monday or Wednesday afternoon
- or two blocks of time on Tuesday and Thursday (mornings and afternoons)

Classes run at any time between 7.30am and 6.00pm.

'Shared' courses are indicated in **BLOCKED** letters on the **NBSC Year 11 Curriculum Matrix**. This matrix shows all courses available at all campuses. The Year 11 Curriculum Matrix is included in the enrolment package.

Students who select courses delivered on more than one campus must consider their selection carefully as significantly more commitment is needed to study away from their home campus.

Course fees may apply for materials used by students attending a 'shared' class. The fees are payable to the campus that is offering the course.

The NBSC will provide transport between campuses in the College minibus. Transport is not provided to and from the students' home address and their host campus.

## **TAFE NSW**

For many years HSC students from campuses of NBSC have included in their program, courses that are studied at TAFE NSW (TVET). These VET courses are dual accredited, giving both HSC and AQF qualifications and advanced standing for further study at TAFE NSW or private registered providers.

Students may select courses from The Northern Sydney Institute (part of TAFE NSW). Courses are usually delivered at the Northern Beaches Campus (Brookvale) and the Freshwater TAFE NSW facility (on NBSC Freshwater Senior Campus site).

All courses run in 4 hour sessions one afternoon a week. Students arrange their own transport to and from TAFE NSW classes. School bus passes cannot be used.

Disclaimer: TAFE courses offered are not guaranteed to run.

## Enrolment Policy

The underlying principle of Northern Beaches Secondary College is to ensure the provision of the highest quality educational experience for every student regardless of campus location.

Our policy has been developed as a college and applies to all enrolment applications. The policy is based on legislation which ensures:

- Children are entitled to be enrolled in Year 7 at the campus that is designated for the intake area within which the child's home is situated and that the child is eligible to attend.
- Campus local areas are determined by the Department of Education (DoE) through a process involving consultation between the *Asset Management Unit* and the Director (or designated officer)
- Parents may seek to enrol their child in the school or campus of their choice, or may elect to attend another school which would become their designated school.
- Enrolment in a selective school or campus is managed by the procedures of the *DoE High Performing Students Unit* and so have unique processes which do not involve a local intake area.

Campuses are required to set an enrolment number to cater for anticipated local demand and to seek to ensure that every eligible local child has a place at the local school if the child chooses to attend it, at least at the start of the Year 7 school year. Each campus will provide places to students who move into the designated intake area during the secondary school years.

- Our enrolment policies and practices are transparent and non-discriminatory.
- The primary criteria for acceptance of non-local enrolments will include the availability of appropriate staff with permanent classroom accommodation and other factors based on the needs of the school.
- The decision on where to enrol a student, and with what level of support, will depend on a number of factors, including a student's educational needs, the expressed desires of parents and caregivers, the capacity of the system to provide the level of support services required generally and at a particular location and the availability of support services at alternative locations.

### Enrolment Ceilings

Each campus has established an enrolment ceiling, based on available permanent accommodation.

Additionally each Campus (other than NBSC Manly Campus) is required to set aside a number of places to accommodate local students arriving throughout the year, including those to be placed from Intensive English Centres. This buffer is determined on historic data. Places in the buffer are not to be offered to non-local students.

NBSC Manly Campus entry is through processes managed by the *High Performing Student Unit* and DoE policies and criteria and so local Year 7 students do not receive priority for enrolment.

## Placement Panels

Each Campus will have its own panel to discuss non-local applications. The composition of the panel is to be determined by each campus, but must include at least one staff member, other than the Campus Principal, one school community member nominated by the school's parent organisation. The panel will be chaired by the Principal who will have a casting vote.

In assessing the application of the criteria to individual cases, the panel will consider only those matters presented in the application form and not oral or other submissions. The decisions made by the placement panel must be made within the context of the agreed enrolment ceiling and the buffer retained for local students arriving later in the year. The placement panel should record all decisions and minutes of meetings are to be available on request by the Director, Public School NSW (or designated officer).

## Criteria for College Non-local Enrolment Applications

The Northern Beaches Secondary College policy encourages all students to enrol in their designated local campus unless a compelling reason exists for an alternate enrolment. The decision on where to enrol a student, and with what level of support, will depend on a number of factors, including a student's educational needs, the expressed desires of parents and caregivers, the capacity of the system to provide the level of support services required generally and at a particular location and the availability of support services at alternative locations.

Students residing outside the designated area for a campus may be enrolled in a manner consistent with the enrolment policy according to criteria available from the relevant Campus Principal, which are determined at each campus and agreed collectively by the College Management Team.

It is the decision of the College Management Team that commitment to learning is the most significant criteria when applications for non-local placements are considered.

The applicants need to show commitment to learning and how they would add to the culture and achievement of the campus. If accommodation and staff are available to consider non-local enrolment, other significant criteria for non-local campus enrolment (not in priority order) may be:

- medical reasons (e.g. psychological issues; access to hospital etc.)
- geographical proximity and access to the school
- safety and supervision of the student before and after school
- availability of subjects or combinations of subjects

The panel may also consider the following compassionate circumstances (not in priority order):

- siblings already enrolled at the school
- access to single-sex or co-educational education
- special interests and abilities
- where parents work (geographical)

The Campus Principal will ensure that the established criteria are applied equitably to all applicants. Parents should be provided with an explanation of the decisions of the placement panel in writing, should they request it.

## Waiting Lists

Waiting lists may be established for non-local students. Parents should be advised in writing if their child is to be placed on a waiting list and the position on it. The size of the waiting list should reflect realistic expectations of potential vacancies. Waiting lists are current for one year only.

## Appeals

Where a parent wishes to appeal against the decision of the campus placement panel, the appeal should be made in writing to the College Principal who will seek to resolve the matter. If the matter is not resolved at the local level the Director, Public Schools NSW will consider the appeal, consult and make a determination. The purpose of the appeal is to determine whether the stated criteria have been applied fairly.

## Single Sex Campuses

Within Northern Beaches Secondary College there are two single-sex campuses (NBSC Mackellar Girls and NBSC Balgowlah Boys) and two co-educational campuses (NBSC Cromer and NBSC Freshwater Senior), which each have a designated enrolment area. Students residing within the designated area for a single-sex campus will be able to enrol, usually at the start of a school year in the same way as students residing in area for a co-educational campus are able to enrol locally.

## Selective Campus

The other Northern Beaches Secondary College co-educational campus available for Year 7 entry is NBSC Manly Campus. This is a selective school with specific academic entry requirements, and so does not have a designated enrolment area. Year 7 enrolment applications for this campus are managed via the processes of the *High Performing Students Unit*. All enrolment applications into Years 8-11 are managed by the school via both a test and a written application directly to the campus. Applications are not generally accepted into Year 12 and further details regarding the process of application will be made available on the campus website and are updated each year.

## Senior Campus

The only definite way to ensure enrolment at NBSC Freshwater Senior Campus is to reside within the designated intake area. All non-local students will be considered under the non-local selection criteria, without regard to their current school enrolment. Students will have had to demonstrate their ability to work in a senior study environment based on the principles of independent learning. Students, including those who have attended another Northern Beaches Secondary College campus as well as those from other schools, may increase their chance of success by demonstrating a more adult and independent style of learning prior to their application. Academic attainment is not a specific selection criteria and applications are not generally accepted into Year 12.

## Enrolment in Academic Extension and Gifted and Talented Classes

Students may seek to be considered for campus academic extension classes which are offered at NBSC Cromer, Balgowlah Boys and Mackellar Girls Campuses. While in Year 6, such students are expected to sit the Academic Placement Test. Details of the process and timing will be available on the Northern Beaches Secondary College website each year. Non-local applicants for academic extension classes at all campuses will be considered by a single selection panel chaired by the College Principal and students will be notified by the respective campus of the outcome of their application.

Each campus will have specific procedures governing any other specialised gifted and talented class placements and further information can be obtained through the respective Campus Principal or from the campus website directly.

### **Enrolment of Students with Special Learning Needs**

Requests for enrolment in special classes or special schools are considered by a DoE placement panel. Further information can be obtained by contacting DoE Macquarie Park Office directly.

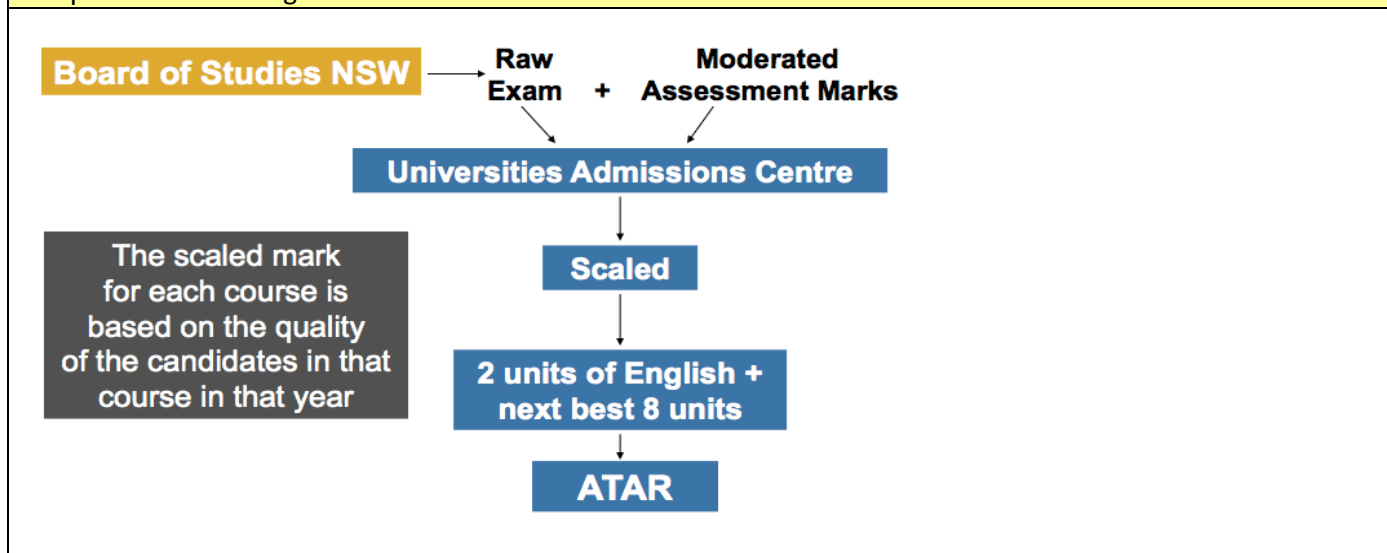

### **Refusal of Enrolment**

Campus Principals may refuse enrolment of a student on the grounds of previously documented violent behaviour if there is evidence that the student has not learned the appropriate skills to manage this behaviour. For post- compulsory school-aged students, a Campus Principal may undertake a risk assessment if it is believed that an applicant may not have the ability to work independently or socialise in the more adult environment of the senior school years and therefore would be putting them and learning at risk.

## Australian Tertiary Admission Rank (ATAR)

The Australian Tertiary Admission Rank (ATAR) is a number between 0 and 99.95 with increments of 0.05. It provides a measure of a student's overall academic achievement in the NSW HSC in relation to that of other students and assists institutions to rank applicants for tertiary selection. It is calculated by the institutions and released by UAC. The ATAR is a rank not a mark.

### Snapshot: Calculating the ATAR

Further details on the ATAR can be obtained from the Universities Admission Centre (UAC) [www.uac.edu.au](http://www.uac.edu.au)

To be eligible for an ATAR you must satisfactorily complete at least 10 units of ATAR courses including at least 2 units of English. The ATAR is based on an aggregate of scaled marks (average of examination and assessment marks) in ten units of ATAR courses comprising the best:

- 2 units of English
- 8 units from the remaining units, subject to the provision that no more than two units of Category B courses are included.

ATAR courses are Board Developed Courses for which there are examinations conducted by the NESA that yield a graded assessment. ATAR courses are classified as either Category A or Category B.

**Snapshot: What is the difference between the HSC and the ATAR?**

HSC	ATAR
<ul style="list-style-type: none"><li>• is for all students</li><li>• reports student achievement in terms of a standard achieved in individual courses</li><li>• presents a profile of student achievement across a broad range of subjects</li></ul>	<ul style="list-style-type: none"><li>• is for students wishing to gain a place at a university</li><li>• is a rank NOT a mark</li><li>• provides information about how students perform overall in relation to other students</li><li>• provides the discrimination required by universities for the selection process</li></ul>

# HSC Subjects Bonus Scheme

If you are a student sitting the HSC in 2017 and will be receiving an ATAR you may be eligible for bonus ATAR points under the HSC Subjects Bonus Scheme. Bonus ATAR points are awarded to students who perform well in HSC subjects that are relevant to the specific undergraduate degree program/s they wish to study at many universities. Not all university courses may be eligible for bonus ATAR points.

## Assessment and Reporting

The HSC is based on a standards referenced framework. Student performance is assessed and reported against standards of achievement established for each course.

School based assessment tasks constitute 50% of the HSC mark. The other 50% comes from the HSC examination. The HSC mark for 2 unit courses is reported on a scale of 0 - 100. A mark of 50 represents the minimum standard expected. There are 5 performance bands above 50 that correspond to different levels of achievement in knowledge, skills and understanding. Band 6 corresponds to the highest level of achievement, indicating a range of marks between 90 and 100.

## VET Assessment

- Assessment is competency based
- Assessment of relevant tasks counts towards AQF VET qualification component.

On satisfactory completion of the HSC students receive a **portfolio** containing:

<b>Higher School Certificate Testamur</b>	The official certificate confirming achievement of all requirements for the award of the HSC.
<b>Record of Achievement</b>	The document listing the results of each HSC course satisfactorily completed.
<b>Course Reports</b>	Reports of marks, the performance scale and band descriptors for each course.
<b>AQF VET Certificate</b>	This certificate is awarded to students VET courses who successfully complete all requirements of an Australian Qualifications Framework (AQF) VET Certificate.
<b>VET Statement of Attainment</b>	A Statement of Attainment is issued to students in VET courses who partially complete the requirements of an AQF VET Certificate.
<b>Life Skills Profile of Student Achievement</b>	<p>Where students satisfactorily complete a Life Skills course, the course is listed on the Record of Achievement with the annotation.</p> <p>The <u>Profile of Student Achievement</u> provides details of the specific Life Skills syllabus outcomes achieved.</p>

## Where to go for help

- Head teachers, course teachers and course coordinators on your campus for advice about the content of particular subjects.
- Careers Adviser on your campus for advice on careers, VET courses, TAFE NSW courses, and tertiary institution requirements.
- Deputy Principal responsible for curriculum on your campus regarding curriculum requirements, subject combinations and study on more than one campus.
- Your parents.

Further information can be found at the:

- NESA website at [www.boardofstudies.nsw.edu.au](http://www.boardofstudies.nsw.edu.au)
- University Admissions Centre (UAC) at [www.uac.edu.au](http://www.uac.edu.au) School link, Year 10 Information
- NBSC Administration Centre located at NBSC Freshwater Senior Campus, Harbord Road, Freshwater on 9939 6942.

# Details of courses

## Board Developed Courses

These are courses for which the NESA develops a syllabus setting out the aims, objectives, outcomes, structure and content.

Board Developed Courses are all delivered at school, except Automotive, Electrotechnology, Financial Services, Human Services and Tourism Travel and Events which are delivered at TAFE NSW.

Most Board Developed HSC courses, including the VET framework courses, may contribute to the calculation of the ATAR.

The course descriptions that follow are intended as a guide to help students select their subjects.

The arrangements for particular courses and electives offered may vary from one campus to another and it is the students' responsibility to seek specific information from their preferred campus. Classes can only be formed where a sufficient number of students select the particular course. The fact that a course is listed here is not a commitment to run the course in a particular year.

## Ancient History (ATAR)

2 units in Year 11 and Year 12

Board Developed Course

### Rational

The study of Ancient History engages students in an investigation of life in early societies based on the analysis and interpretation of physical and written remains. It offers students the opportunity to investigate the possible motivations and actions of individuals and groups, and how they shaped the political, social, economic and cultural landscapes of the ancient world. Ancient History stimulates students' curiosity and imagination and enriches their appreciation of humanity by introducing them to a range of cultures and beliefs as well as to the origins and influences of ideas, values and behaviours that are still relevant in the modern world. The investigation of the ancient past develops students' appreciation of the diversity of ancient societies and the longevity of Australia's Aboriginal and Torres Strait Islander peoples.

### Year 11 Course Structure and Requirements

The Year 11 course is structured to provide students with opportunities to develop and apply their understanding of methods and issues involved in the investigation of the ancient past. Through the use of archaeological and written sources, students investigate various aspects of the ancient world, including historical sites, people, societies, events and developments. The course comprises three sections. Students are required to study all three sections of the course.

	<b>Ancient History</b>	<b>Indicative hours</b>
<b>Year 11 course (120 hours)</b>	Investigating Ancient History <ul style="list-style-type: none"> <li>• The Nature of Ancient History</li> <li>• Case Studies</li> </ul> <i>Each case study should be a minimum of 10 indicative hours.</i>	60
	Features of Ancient Societies	40
	Historical Investigation	20

### Year 12 Course Structure and Requirements

The Year 12 course is structured to provide students with opportunities to apply their understanding of archaeological and written sources and relevant historiographical issues in the investigation of the ancient past. The course comprises four sections. Students are required to study all four sections of the course.

	<b>Ancient History</b>	<b>Indicative hours</b>
<b>Year 12 course (120 hours)</b>	Core Study: Cities of Vesuvius – Pompeii and Herculaneum	30
	Ancient Societies	30
	Personalities in their Times	30
	Historical Periods	30

## Biology (ATAR)

2 units in Year 11 and Year 12

Board Developed Course

## Rational

The *Biology Stage 6 Syllabus* explores the diversity of life from a molecular to a biological systems level. The course examines the interactions between living things and the environments in which they live. It explores the application of biology and its significance in finding solutions to health and sustainability issues in a changing world.

The Biology course builds on the knowledge and skills of the study of living things found in the Science Stage 5 course. The course maintains a practical emphasis in the delivery of the course content and engages with the technologies that assist in investigating current and future biological applications.

## Year 11 Course Structure and Requirements

Year 11 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		<b>Module 1</b> Cells as the Basis of Life	60	*15 hours in Modules 1–4
		<b>Module 2</b> Organisation of Living Things		
		<b>Module 3</b> Biological Diversity	60	
		<b>Module 4</b> Ecosystem Dynamics		

## Year 12 Course Structure and Requirements

Year 12 course (120 hours)	Working Scientifically Skills	Module	Indicative hours	Depth studies
		Module 5 Heredity	60	*15 hours in Modules 5–8
		Module 6 Genetic Change		
		Module 7 Infectious Disease	60	
		Module 8 Non-infectious Disease and Disorders		

## Chemistry (ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

The *Chemistry Stage 6 Syllabus* explores the structure, composition and reactions of and between all elements, compounds and mixtures that exist in the Universe. The discovery and synthesis of new compounds, the monitoring of elements and compounds in the environment, and an understanding of industrial processes and their applications to life processes are central to human progress and our ability to develop future industries and sustainability.

The Chemistry course builds on students' knowledge and skills developed in the Science Stage 5 course and increases their understanding of chemistry as a foundation for undertaking investigations in a wide range of Science, Technology, Engineering and Mathematics (STEM) related fields. A knowledge and understanding of chemistry is often the unifying link between interdisciplinary studies.

#### Year 11 Course Structure and Requirements

Year 11 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		<b>Module 1</b> Properties and Structure of Matter	60	*15 hours in Modules 1–4
		<b>Module 2</b> Introduction to Quantitative Chemistry		
		<b>Module 3</b> Reactive Chemistry	60	
		<b>Module 4</b> Drivers of Reactions		

#### Year 12 Course Structure and Requirements

Year 12 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		Module 5 Equilibrium and Acid Reactions	60	*15 hours in Modules 5–8
		Module 6 Acid/base Reactions		
		Module 7 Organic Chemistry	60	
		Module 8 Applying Chemical Ideas		

## Earth and Environmental Science (ATAR)

2 units in Year 11 and Year 12

Board Developed Course

### Rational

The *Earth and Environmental Science Stage 6 Syllabus* explores the Earth's renewable and non-renewable resources and also environmental issues. An understanding of the Earth's resources and the ability to live sustainably on the planet is a central purpose of the study of Earth and Environmental Science.

The Earth and Environmental Science course builds on the knowledge and skills of Earth and Space gained in the Science Stage 5 course. The course maintains a practical emphasis in the delivery of the course content, and engages with technologies that assist in developing earth and environmental science applications.

### Year 11 Course Structure and Requirements

Year 11 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		<b>Module 1</b> Earth’s Resources	60	*15 hours in Modules 1–4
		<b>Module 2</b> Plate Tectonics		
		<b>Module 3</b> Energy Transformations	60	
		<b>Module 4</b> Human Impacts		

### Year 12 Course Structure and Requirements

Year 12 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		Module 5 Earth's Processes	60	*15 hours in Modules 5–8
		Module 6 Hazards		
		Module 7 Climate Science	60	
		Module 8 Resource Management		

## Summary of all English Courses

**English Life Skills** is designed for students with special education needs who are unable to access the outcomes of the Stage 6 English courses even with adjustments to teaching, learning and assessment. It provides an opportunity for students to engage in personalised learning of English through the selection of outcomes and content relevant to the student's abilities, needs and interests. Students undertaking English Life Skills are eligible for the award of the Higher School Certificate.

**English Studies** is designed for students who wish to refine their skills and knowledge in English and consolidate their English literacy skills to enhance their personal, social, educational and vocational lives. It is a course for students who wish to be awarded a Higher School Certificate but who are seeking an alternative to the English Standard course.

**English Standard** is designed for all students to increase their expertise in English and consolidate their English literacy skills in order to enhance their personal, social, educational and vocational lives. The students learn to respond to and compose a wide variety of texts in a range of situations in order to be effective, creative and confident communicators.

**English Advanced** is designed for students to undertake the challenge of higher-order thinking to enhance their personal, social, educational and vocational lives. These students apply critical and creative skills in their composition of and response to texts in order to develop their academic achievement through understanding the nature and function of complex texts.

**English EAL/D** is designed for students from diverse non-English speaking, Aboriginal or Torres Strait Islander backgrounds as designated by the course entry requirements. The students engage in a variety of language learning experiences to develop and consolidate their use, understanding and appreciation of Standard Australian English, to enhance their personal, social, educational and vocational lives. The students learn to respond to and compose a wide variety of texts in a range of situations in order to be effective, creative and confident communicators.

**English Extension** is designed for students undertaking English Advanced who choose to study at a more intensive level in diverse but specific areas. They enjoy engaging with complex levels of conceptualisation and seek the opportunity to work in increasingly independent ways.

## English Advanced (ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

In the English Advanced course, students continue to explore opportunities that are offered by challenging texts to investigate complex and evocative ideas, to evaluate, emulate and employ powerful, creative and sophisticated ways to use language to make meaning, and to find enjoyment in literature.

The English Advanced course is designed for students who have a particular interest and ability in the subject and who desire to engage with challenging learning experiences that will enrich their personal, intellectual, academic, social and vocational lives. Students appreciate, analyse and respond imaginatively and critically to literary texts drawn from a range of personal, social, historical and cultural contexts, including literature from the past and present and from Australian and other cultures. They study challenging written, spoken, visual, multimodal and digital texts that represent and reflect a changing global world.

#### Year 11 Course Structure and Requirements

	English Advanced	Indicative hours
<b>Year 11 course (120 hours)</b>	Common module: Reading to Write	40
	Module A: Narratives that Shape our World	40
	Module B: Critical Study of Literature	40
<b>Text requirements</b>	<p>There are no prescribed texts for Year 11.</p> <p>Students must study a range of types of texts drawn from prose fiction, drama, poetry, nonfiction, film, media and digital texts.</p> <p>The Year 11 course requires students to support their study of texts with their own wide reading.</p>	

## Year 12 Course Structure and Requirements

	English Advanced	Indicative hours
<b>Year 12 course (120 hours)</b>	Common module: Texts and Human Experiences	30
	Module A: Textual Conversations	30
	Module B: Critical Study of Literature	30
	Module C: The Craft of Writing Optional: This module may be studied concurrently with the common module and/or Modules A and B	30
<b>Text requirements</b>	<p>Students are required to closely study <b>four prescribed texts</b>, one drawn from each of the following categories:</p> <ul style="list-style-type: none"> <li>• Shakespearean drama</li> <li>• prose fiction</li> <li>• poetry OR drama</li> </ul> <p>The remaining text may be film, media or nonfiction text <b>or</b> may be selected from one of the categories above.</p> <p>The selection of texts for Module C: The Craft of Writing may be drawn from any types of texts and do not contribute to the pattern of prescribed texts for the course.</p> <p>Students must study ONE related text in the common module: Texts and Human Experiences.</p>	

## English as an Additional Language or Dialect (EAL/D) (ATAR)

2 units in Year 11 and Year 12

Board Developed Course

### Rational

English EAL/D addresses the needs of a specific group of students and shares the overall aim and rationale of English. When presented at the HSC, the English EAL/D course will satisfy NESA requirements for the study of English.

English EAL/D is designed for students from diverse non-English speaking, Aboriginal or Torres Strait Islander backgrounds as designated by the course entry requirements. The students engage in a variety of language learning experiences to develop and consolidate their use, understanding and appreciation of Standard Australian English, to enhance their personal, social, educational and vocational lives. The students learn to respond to and compose a wide variety of texts in a range of situations in order to be effective, creative and confident communicators.

### Year 11 Course Structure and Requirements

	English EAL/D	Indicative hours
<b>Year 11 course (120 hours)</b>	Module A: Language and Texts in Context	30–40
	Module B: Close Study of Text	30–40
	Module C: Texts and Society	30–40
	Optional teacher-developed module	up to 30
<b>Hours</b>	Year 11 course modules are prescribed with flexible hours, providing scope for teachers to design a fourth module to cater to the particular needs, interests and abilities of their students if required.	
<b>Text requirements</b>	<p>There are no prescribed texts for Year 11.</p> <p>Students are required to study one substantial literary text, for example film, prose fiction, drama or a poetry text, which may constitute a selection of poems from the work of one poet.</p> <p>Students must study a range of types of texts drawn from prose fiction, drama, poetry, nonfiction, film, media and digital texts.</p> <p>The Year 11 course requires students to support their study of texts with their own wide reading.</p>	

## Year 12 Course Structure and Requirements

	English EAL/D	Indicative hours
<b>Year 12 course (120 hours)</b>	Module A: Texts and Human Experiences	30
	Module B: Language, Identity and Culture	30
	Module C: Close Study of Text	30
	Focus on Writing (studied concurrently with the above modules)	30
<b>Text requirements</b>	<p>Students are required to closely study <b>three types of prescribed texts</b>, one drawn from each of the following categories:</p> <ul style="list-style-type: none"> <li>• prose fiction</li> <li>• poetry <b>OR</b> drama</li> <li>• film <b>OR</b> media <b>OR</b> nonfiction</li> </ul> <p>The selections of texts for the Focus on Writing module do not contribute to the required pattern of prescribed texts for the course.</p> <p>Students must study ONE related text in Module A: Texts and Human Experiences.</p>	

## English Extension (ATAR)

### 1 unit in Year 11 and Year 12

Board Developed Course

#### Rational

English Extension (Year 11) is designed for students undertaking English Advanced who choose to study at a more intensive level in diverse but specific areas. They enjoy engaging with complex levels of conceptualisation and seek the opportunity to work in increasingly independent ways.

The English Extension 1 (Year 12) course provides students who undertake Advanced English and are accomplished in their use of English with the opportunity to extend their use of language and self-expression in creative and critical ways. Through engaging with increasingly complex concepts through a broad range of literature, from a range of contexts, they refine their understanding and appreciation of the cultural roles and the significance of texts.

The English Extension 2 (Year 12) course enables students who are accomplished in their use of English with the opportunity to craft language and refine their personal voice in critical and creative ways. They can master skills in the composition process to create a substantial and original Major Work that extends their knowledge, understanding and skills developed throughout Stage 6 English courses. Through the creative process they pursue areas of interest independently, develop deep knowledge and manipulate language in their own extended compositions.

#### Year 11 Course Structure and Requirements

	English Extension	Indicative hours
<b>Year 11 course (60 hours)</b>	Module: Texts, Culture and Value	40
	Related research project This project may be undertaken concurrently with the module	20
<b>Text requirements</b>	Teachers prescribe ONE text from the past and its manifestations in one or more recent cultures  Students select ONE text and its manifestations in one or more recent cultures. Students research a range of texts as part of their independent project	

## Year 12 Course Structure and Requirements

Year 12 course (60 hours)	English Extension 1	Indicative hours
	Common module: Literary Worlds with ONE elective option	60
<b>Text requirements</b>	<p>The study of at least THREE texts must be selected from a prescribed text list for the module study including at least TWO extended print texts</p> <p>Students are required to study at least TWO related texts</p>	

Year 12 course (60 hours)	English Extension 2	Indicative hours
	<p>The Composition Process</p> <p>Major Work</p> <p>Reflection Statement</p> <p>The Major Work Journal</p>	60
<b>Text requirements</b>	<p>Students undertake extensive independent investigation involving a range of complex texts during the composition process and document this in their Major Work Journal and Reflection Statement</p>	

## English Standard (ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

The English Standard course is designed for students to increase their expertise in English to enhance their personal, educational, social and vocational lives. The English Standard course provides students, who have a diverse range of literacy skills, with the opportunity to analyse, study and enjoy a breadth and variety of English texts to become confident and effective communicators. English Standard offers a rich language experience that is reflected through the integrated modes of reading, writing, speaking, listening, viewing and representing.

#### Year 11 Course Structure and Requirements

	English Standard	Indicative hours
<b>Year 11 course (120 hours)</b>	Common module – Reading to Write: Transition to Senior English	40
	Module A: Contemporary Possibilities	40
	Module B: Close Study of Literature	40
<b>Text requirements</b>	<p>There are no prescribed texts for Year 11.</p> <p>Students are required to study ONE complex multimodal or digital text in Module A. (This may include the study of film.)</p> <p>Students are required to study ONE substantial literary print text in Module B, for example prose fiction, drama or a poetry text, which may constitute a selection of poems from the work of one poet.</p> <p>Students must study a range of types of texts drawn from prose fiction, drama, poetry, nonfiction, film, media and digital texts.</p> <p>The Year 11 course requires students to support the study of texts with their own wide reading.</p>	

## Year 12 Course Structure and Requirements

	English Standard	Indicative hours
<b>Year 12 course (120 hours)</b>	Common module – Texts and Human Experiences	30
	Module A: Language, Identity and Culture	30
	Module B: Close Study of Literature	30
	Module C: The Craft of Writing <b>Optional:</b> This module may be studied concurrently with the common module and/or Modules A and B	30
<b>Text requirements</b>	<p>Students are required to closely study <b>three types of prescribed texts</b>, one drawn from each of the following categories:</p> <ul style="list-style-type: none"> <li>• prose fiction</li> <li>• poetry <b>OR</b> drama</li> <li>• film <b>OR</b> media <b>OR</b> nonfiction</li> </ul> <p>The selection of texts for <i>Module C: The Craft of Writing</i> does not contribute to the required pattern of prescribed texts for the course.</p> <p>Students must study ONE related text in the Common module: Texts and Human Experiences.</p>	

## English Studies (ATAR)

### 2 units in Year 11 and Year 12

Board Endorsed Course

#### Rational

The English Studies course is designed to provide students with opportunities to become competent, confident and engaged communicators and to study and enjoy a breadth and variety of texts in English. English Studies focuses on supporting students to refine their skills and knowledge in English and consolidate their English literacy skills to enhance their personal, educational, social and vocational lives.

#### Year 11 Course Structure and Requirements

	English Studies	Indicative hours
Year 11 course (120 hours)	Mandatory module – Achieving through English: English in education, work and community	30–40 hours
	An additional 2–4 modules to be studied	20–30 hours each
Text requirements	<p>In <b>Year 11</b> students are required to:</p> <ul style="list-style-type: none"> <li>• read, view, listen to and compose a <b>wide range of texts</b> including print and multimodal texts</li> <li>• study at least one substantial print text (for example a novel, biography or drama)</li> <li>• study at least one substantial multimodal text (for example film or a television series).</li> </ul> <p><b>Across Stage 6</b> the selection of texts must give students experiences of the following as appropriate:</p> <ul style="list-style-type: none"> <li>• reading, viewing, listening to and composing a wide range of texts, including literary texts written about intercultural experiences and peoples and cultures of Asia</li> <li>• Australian texts including texts by Aboriginal and/or Torres Strait Islander authors and those that give insights into diverse experiences of Aboriginal and/or Torres Strait Islander peoples</li> <li>• texts with a wide range of cultural, social and gender perspectives, popular and youth cultures</li> <li>• a range of types of text drawn from prose fiction, drama, poetry, nonfiction, film, media and digital texts.</li> </ul>	
Additional requirements	<p>In Year 11 students are <b>required</b> to:</p> <ul style="list-style-type: none"> <li>• be involved in planning, research and presentation activities as part of one individual and/or collaborative project</li> <li>• develop a portfolio of texts they have planned, drafted, edited and presented in written, graphic and/or electronic forms across all the modules undertaken during the year</li> <li>• engage with the community through avenues for example visits, surveys, interviews, work experience, listening to guest speakers and/or excursions.</li> </ul>	

## Year 12 Course Structure and Requirements

	English Studies	Indicative hours
Year 12 course (120 hours)	Mandatory common module – Texts and Human Experiences	30 hours
	An additional 2–4 modules to be studied	20–45 hours each
Text requirements	<p>In <b>both</b> Year 11 <b>and</b> Year 12 students are required to:</p> <ul style="list-style-type: none"> <li>read, view, listen to and compose a <b>wide range of texts</b> including print and multimodal texts</li> <li>study at least one substantial print text (for example a novel, biography or drama)</li> <li>study at least one substantial multimodal text (for example film or a television series).</li> </ul> <p>In Year 12 students will <b>also</b> be required to:</p> <ul style="list-style-type: none"> <li>study ONE text from the prescribed text list and one related text for the Common Module – Texts and Human Experiences.</li> </ul> <p><b>Across Stage 6</b> the selection of texts must give students experiences of the following as appropriate:</p> <ul style="list-style-type: none"> <li>reading, viewing, listening to and composing a wide range of texts, including literary texts written about intercultural experiences and peoples and cultures of Asia</li> <li>Australian texts including texts by Aboriginal and/or Torres Strait Islander authors and those that give insights into diverse experiences of Aboriginal and/or Torres Strait Islander peoples</li> <li>texts with a wide range of cultural, social and gender perspectives, popular and youth cultures</li> <li>a range of types of text drawn from prose fiction, drama, poetry, nonfiction, film, media and digital texts.</li> </ul>	
Additional requirements	<p>In Year 12 students are <b>required</b> to:</p> <ul style="list-style-type: none"> <li>be involved in planning, research and presentation activities as part of one individual and/or collaborative project</li> <li>develop a portfolio of texts they have planned, drafted, edited and presented in written, graphic and/or electronic forms across all the modules undertaken during the year</li> <li>engage with the community through avenues for example visits, surveys, interviews, work experience, listening to guest speakers and/or excursions.</li> </ul>	

## History Extension (ATAR)

1 unit in Year 12

Board Developed Course

### Rational

The History Extension course is about the nature of history, and how and why historical interpretations are developed from different perspectives and approaches over time. It offers a higher level of challenge than the Ancient History and Modern History courses with its greater emphasis on historiography.

The History Extension course requires students to examine the way history is constructed and the role of historians. This involves reviewing the types of history that have been produced over time and the contexts in which they were developed. Students explore problems and issues associated with the construction of history through sampling the works of various writers, historians and others involved in the practice of history from ancient times to the present day. Students focus on an area of debate to consider how an historian's context, methodology and purpose shape their interpretation of a person, group, event or issue. Students apply their understanding and skills of historical inquiry by designing and conducting their own historical investigation.

### Year 12 Course Structure and Requirements

Year 12 course (60 hours)	History Extension	Indicative hours
	Constructing History <ul style="list-style-type: none"> <li>• Key Questions</li> <li>• Case Studies</li> </ul>	40 (minimum)
	History Project	20 (maximum)

## Investigating Science (ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

The Investigating Science Stage 6 Syllabus is designed to assist students of all abilities engage with scientific processes, and apply those processes to investigate relevant personal, community and global scientific issues.

The Investigating Science course is designed to complement the study of the science disciplines by providing additional opportunities for students to investigate and develop an understanding of scientific concepts, their current and future uses, and their impacts on science and society. The course draws on and promotes interdisciplinary science, by allowing students to investigate a wide range of STEM (Science, Technology, Engineering and Mathematics) related issues and concepts in depth.

#### Year 11 Course Structure and Requirements

Year 11 course (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		<b>Module 1</b> Cause and Effect – Observing	60	*30 hours in Modules 1–4
		<b>Module 2</b> Cause and Effect – Inferences and Generalisations		
		<b>Module 3</b> Scientific Models	60	
		<b>Module 4</b> Theories and Laws		

#### Year 12 Course Structure and Requirements

Year 12 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		Module 5 Scientific Investigations	60	*30 hours in Modules 5–8
		Module 6 Technologies		
		Module 7 Fact or Fallacy?	60	
		Module 8 Science and Society		

## Mathematics Standard (ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

The Mathematics Standard courses are focused on enabling students to use mathematics effectively, efficiently and critically to make informed decisions in their daily lives. They provide students with the opportunities to develop an understanding of, and competence in, further aspects of mathematics through a large variety of real-world applications for a range of concurrent HSC subjects.

Mathematics Standard 1 is designed to help students improve their numeracy by building their confidence and success in making mathematics meaningful. Numeracy is more than being able to operate with numbers. It requires mathematical knowledge and understanding, mathematical problem-solving skills and literacy skills, as well as positive attitudes. When students become numerate they are able to manage a situation or solve a problem in real contexts, such as everyday life, work or further learning. This course offers students the opportunity to prepare for post-school options of employment or further training.

Mathematics Standard 2 is designed for those students who want to extend their mathematical skills beyond Stage 5 but are not seeking the in-depth knowledge of higher mathematics that the study of calculus would provide. This course offers students the opportunity to prepare for a wide range of educational and employment aspirations, including continuing their studies at a tertiary level.

#### Year 11 Course Structure and Requirements

The Year 11 course is organised in topics, with the topics divided into subtopics. The Year 11 course is undertaken by all students intending to study either the Mathematics Standard 1 Year 12 course or the Mathematics Standard 2 Year 12 course.

Year 11 course (120 hours)	Mathematics Standard	
	Topics	Subtopics
	Algebra	<b>MS-A1</b> Formulae and Equations <b>MS-A2</b> Linear Relationships
	Measurement	<b>MS-M1</b> Applications of Measurement <b>MS-M2</b> Working with Time
	Financial Mathematics	<b>MS-F1</b> Money Matters
	Statistical Analysis	<b>MS-S1</b> Data Analysis <b>MS-S2</b> Relative Frequency and Probability

## Year 12 Course Structure and Requirements

The courses are organised into topics, with the topics divided into subtopics.

<b>Year 12 course (120 hours)</b>	<b>Mathematics Standard 1</b>	
	<b>Topics</b>	<b>Subtopics</b>
	Algebra	<b>MS-A3</b> Types of Relationships
	Measurement	<b>MS-M3</b> Right-angled Triangles <b>MS-M4</b> Rates <b>MS-M5</b> Scale Drawings
	Financial Mathematics	<b>MS-F2</b> Investment <b>MS-F3</b> Depreciation and Loans
	Statistical Analysis	<b>MS-S3</b> Further Statistical Analysis
	Networks	<b>MS-N1</b> Networks and Paths

<b>Year 12 Course (120 hours)</b>	<b>Mathematics Standard 2</b>	
	<b>Topics</b>	<b>Subtopics</b>
	Algebra	<b>MS-A4</b> Types of Relationships
	Measurement	<b>MS-M6</b> Non-right-angled Trigonometry <b>MS-M7</b> Rates and Ratios
	Financial Mathematics	<b>MS-F4</b> Investments and Loans <b>MS-F5</b> Annuities
	Statistical Analysis	<b>MS-S4</b> Bivariate Data Analysis <b>MS-S5</b> The Normal Distribution
	Networks	<b>MS-N2</b> Network Concepts <b>MS-N3</b> Critical Path Analysis

## Modern History (ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

The study of Modern History engages students in an investigation of the forces that have shaped the world, based on the analysis and interpretation of sources. It offers students the opportunity to investigate the possible motivations and actions of individuals and groups, and how they have shaped the world politically, culturally, economically and socially. Modern History stimulates students' curiosity and imagination, and enriches their appreciation of humanity by introducing them to a range of historical developments and experiences that have defined the modern world.

#### Year 11 Course Structure and Requirements

The Year 11 course is structured to provide students with opportunities to develop and apply their understanding of methods and issues involved in the investigation of modern history. Students investigate various aspects of the modern world, including people, ideas, movements, events and developments. The course comprises three sections. Students are required to study all three sections of the course.

	Modern History	Indicative hours
Year 11 course (120 hours)	Investigating Modern History <ul style="list-style-type: none"> <li>• The Nature of Modern History</li> <li>• Case Studies</li> </ul> <i>Each case study should be a minimum of 10 indicative hours.</i>	60
	Historical Investigation	20
	The Shaping of the Modern World	40

#### Year 12 Course Structure and Requirements

The Year 12 course is structured to provide students with opportunities to apply their understanding of sources and relevant historiographical issues in the investigation of the modern world. The course comprises four sections. Students are required to study all four sections of the course.

	Modern History	Indicative hours
Year 12 course (120 hours)	Core Study: Power and Authority in the Modern World 1919–1946	30
	National Studies	30
	Peace and Conflict	30
	Change in the Modern World	30

## Physics (ATAR)

2 units in Year 11 and Year 12

Board Developed Course

## Rational

The Physics Stage 6 Syllabus involves the study of matter and its motion through space and time, along with related concepts that include energy and force. Physics deals with the study of phenomena on scales of space and time – from nuclear particles and their interactions up to the size and age of the Universe. This allows students to better understand the physical world and how it works, appreciate the uniqueness of the Universe, and participate in navigating and influencing the future.

The Physics course builds on students' knowledge and skills developed in the Science Stage 5 course and help them develop a greater understanding of physics as a foundation for undertaking post-school studies in a wide range of Science, Technology, Engineering and Mathematics (STEM) fields. A knowledge and understanding of physics often provides the unifying link between interdisciplinary studies.

## Year 11 Course Structure and Requirements

Year 11 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		Module 1 Kinematics	60	*15 hours in Modules 1–4
		Module 2 Dynamics		
		Module 3 Waves and Thermodynamics	60	
		Module 4 Electricity and Magnetism		

## Year 12 Course Structure and Requirements

Year 12 course  (120 hours)	Working Scientifically Skills	Modules	Indicative hours	Depth studies
		Module 5 Advanced Mechanics	60	*15 hours in Modules 5–8
		Module 6 Electromagnetism		
		Module 7 The Nature of Light	60	
		Module 8 From the Universe to the Atom		

# Continuing NSW Syllabi

## Aboriginal Studies (ATAR) 15000

### 2 Units in each of Preliminary and HSC

Board Developed Course

#### What will I be doing in this course?

The Preliminary course focuses on Aboriginal peoples' relationship to the land, Aboriginal heritage and identity, and an historical examination of colonialism, racism and prejudice from pre-contact times to the 1960s. The course also includes the development of skills in culturally appropriate research and inquiry methods. It involves local community case studies.

The HSC course provides for in depth study of legislation, policy, judicial processes and current events from the 1960s. During the course, students will undertake consultation with the local Aboriginal community and will study national and international Indigenous communities. Students apply research and inquiry methods through the completion of a major project.

#### How will this course help me in the future?

This subject is particularly applicable to law, policing, teaching, medicine, nursing, environmental studies, travel and tourism, communications, social work and journalism.

## Business Studies (ATAR) 15040

### 2 Units in each of Preliminary and HSC

Board Developed Course

#### What will I be doing in this course?

Business activity is a feature of everyone's

life. The Business Studies syllabus encompasses the theoretical and practical aspects of business in ways students will encounter throughout their lives. It offers learning from the planning of a small business to the management of operations, marketing, finance and human resource in large businesses.

Contemporary business issues and case studies are embedded in the course to provide a stimulating and relevant framework for students to apply to problems encountered in the business environment. Business Studies fosters intellectual, social and moral development by assisting students to think critically about the role of business and its ethical responsibilities to society.

#### How will this course help me in the future?

The business industry employs 1.6 million people across Australia in a range of employment areas including finance, retail, human resources, real estate and office administration. There are opportunities for students to gain credit transfer in certificate and diploma courses at TAFE NSW.

## Chinese and Literature (ATAR) 15560

### 2 Units in each of Preliminary and HSC

Board Developed Course

Exclusion: Chinese Beginners; Chinese Continuers; Chinese Extension

Eligibility rules apply to the study of this subject. Check with your teacher or refer to Section 8.2.2.2 of the Board's ACE Manual.

#### What will I be doing in this course?

In the Preliminary course students will maintain

and build on their knowledge and understanding of Chinese through the study of language texts and contemporary issues.

In the HSC course, students will continue to develop their knowledge and understanding of Chinese through the study of prescribed texts, prescribed themes, and contemporary issues. Students will study language and culture through prescribed themes: the individual and the community; global issues; Chinese communities overseas; youth culture.

### **How will this course help me in the future?**

A knowledge of Chinese provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

## **Community and Family Studies (ATAR) 15060**

### **2 Units in each of Preliminary and HSC**

Board Developed Course

### **What will I be doing in this course?**

Community and Family Studies is designed to develop in each student an understanding of the diverse nature and interdependence of families and communities, within Australian society. The course enables students to plan and manage resources effectively in order to address contemporary issues facing families and communities.

The Preliminary course covers: basic concepts of the resource management process; the individual's roles, relationships and tasks within groups; family structures and functions and the interaction between

family and community.

The HSC course covers: Research Methodology and skills culminating in the production of an Independent Research Project; the characteristics and needs of specific community groups; issues are facing individuals and groups who adopt roles of parenting and caring in contemporary society.

Students are required to complete an Independent Research Project as part of the HSC internal assessment. The focus of the Independent Research Project should be related to the course content of one or more of the following areas: individuals, groups, families, communities, resource management.

### **How will this course help me in the future?**

This course has particular application in careers such as Business Management, Human Resource Management, Teaching, Social Work, Nursing, Counselling and Marketing.

## **Computing Applications (non ATAR) 41503**

### **2 Units in each of Preliminary and HSC**

Content Endorsed Course

Exclusion: Information Processes and Technology; Software Design and Development and courses within the Information Technology Curriculum Framework.

### **What will I be doing in this course?**

Computing Applications is a 'hands-on'

skills based course aimed at developing the student's abilities to utilise hardware and software to complete a range of practical experiences in a broad range of topic areas. Students will develop their knowledge and understanding of the role of computing in completing tasks and enable them to be discriminating in the use of this technology to accomplish a defined task.

It is expected that the target group for Computing Applications is those students who have had little practical experience in using computers. Schools may choose a range of modules to develop a program of study that suits the needs of the group of students.

### **How will this course help me in the future?**

This course is recommended for students wishing to develop and enhance their computing skills for a work environment.

## **Dance (ATAR) 15070**

### **2 Units in each of Preliminary and HSC**

Board Developed Course

**Exclusions:** Projects developed for assessment in one subject are not to be used either in full or in part for assessment in any other subject.

### **What will I be doing in this course?**

Students undertake a study of Dance as an art form. There is an equal emphasis on the components of Performance, Composition and Appreciation in the study of Dance. Students studying Dance bring with them a wide range of prior dance experience. Physical training and preparation of the body is fundamental and of paramount importance to the course and informs all three components of the course.

In the Preliminary course, the components to be completed are: Performance, Composition and Appreciation. In addition, time is allocated by the teacher to suit the specific circumstances/ context of the class.

In the HSC course students continue common study in the three core components of Performance, Composition and Appreciation and also undertake an in-depth study of dance in one of the Major Study components, either performance, composition, appreciation or dance and technology.

### **How will this course help me in the future?**

Dance provides students with a variety of skills, which will be beneficial to them in any career. It would be particularly useful for those who may be considering a dance-related career such as choreography, dance teaching, dance therapy, physiotherapy or dance writing and criticism.

## **Design and Technology (ATAR) 15080**

### **2 Units in each of Preliminary and HSC**

Board Developed Course

**Exclusions:** Projects developed for assessment in one subject are not to be used either in full or in part for assessment in any other subject.

### **What will I be doing in this course?**

The Preliminary course involves the study of both designing and producing. This is explored through areas such as design theory and practice, design processes, environmental and social issues, communication, research, technologies, and the manipulation of materials, tools and techniques. The course involves hands-on practical activities which develop knowledge and skills in designing

and producing. The Preliminary course includes the completion of at least two design projects. These projects involve the design, production and evaluation of a product, system or environment and include evidence of the design process recorded in a design folio. The design folio can take a variety of different forms.

The HSC course applies the knowledge and understanding of designing and producing from the preliminary course. It involves the development and realisation of a Major Design Project, a case study of an innovation, along with the study of innovation and emerging technologies.

The study of the course content is integrated with the development of a Major Design Project, worth 60% of the HSC mark. This project requires students to select and apply appropriate design, production and evaluation skills to a product, system or environment that satisfies an identified need or opportunity.

A case study of an innovation is also required with students identifying the factors underlying the success of the innovation; analyses associated ethical issues and discuss its impact on Australian society.

### **How will this course help me in the future?**

Design and Technology provides pathways to employment and further education. It may lead to careers in a range of design fields including industrial design, graphic design, architecture, advertising, marketing and business management. Design and Technology gives advanced standing in a number of certificate and diploma courses at TAFE NSW.

## **Drama (ATAR) 15090**

### **2 Units in each of Preliminary and HSC**

#### **Board Developed Course**

**Exclusions:** Projects developed for assessment in one subject are not to be used either in full or in part for assessment in any other subject.

#### **What will I be doing in this course?**

Students in Drama study the practices of Making, Performing and Critically Studying. Students engage with these components through collaborative and individual experiences.

The Preliminary course comprises an interaction between the components of improvisation, play building and acting, elements of production in performance and theatrical traditions and performance Styles. Learning comes from practical experiences in each of these areas.

The HSC course comprises of Australian Drama and Theatre and Studies in Drama and Theatre and involves the theoretical study through practical exploration of themes, issues, styles and movements of traditions of theatre, exploring relevant acting techniques, performance styles and spaces.

The Group Performance (3-6 students) involves creating a piece of original theatre (8-12 minutes duration). It provides opportunity for each student to demonstrate his or her performance skills. For the Individual Project, students demonstrate their expertise in a particular area. They choose one project from Critical Analysis or Design or Performance or Script-writing or Video Drama.

**How will this course help me in the future?**

Students who wish to pursue a career in theatre or the entertainment industry, or in public relations and media communications can gain experience and confidence through this course.

**Economics (ATAR) 15110****2 Units in each of Preliminary and HSC**

Board Developed Course

**What will I be doing in this course?**

Economics provides understanding for students about many aspects of the economy and its operation that are frequently reported in the media. It investigates issues such as why unemployment or inflation rates change and how these changes will impact on individuals in society. Economics develops students' knowledge and understanding of the operation of the global and Australian economy. It develops the analytical, problem-solving and communication skills of students. There is a strong emphasis on the problems and issues in a contemporary Australian economy.

The Preliminary course covers:

- Introduction to Economics: the nature of economics and the operation of an economy
- Consumers and Business: the role of consumers and business in the economy
- Markets: the role of markets, demand, supply and competition
- Labour Markets: the workforce and role of labour in the economy
- Financial Markets: the financial market in Australia including the share market
- Government in the Economy: the role of government in the Australian economy.

The HSC course covers:

- The Global Economy: features of the global

economy and globalization

- Australia's Place in the Global Economy: Australia's trade and finance
- Economic Issues: issues including growth, unemployment, inflation, wealth and management
- Economic Policies and Management: the range of policies to manage the economy.

**How will this course help me in the future?**

Economics is recommended study for anyone contemplating a career in accountancy, business, industrial relations, management, advertising, marketing, real estate or administration. The successful study of Economics will give credit transfer to a range of Business courses at TAFE NSW as well as being recommended for university study in a business related field.

**Engineering Studies (ATAR) 15120****2 Units in each of Preliminary and HSC**

Board Developed Course

**What will I be doing in this course?**

Both Preliminary and HSC courses offer students' knowledge, understanding and skills in aspects of engineering that include communication, engineering mechanics/hydraulics, engineering materials, historical/societal influences, engineering electricity/ electronics and the scope of the profession. Students study engineering by investigating a range of applications and fields of engineering.

In the Preliminary Course, students undertake the study and develop an engineering report for each of 5 modules:

- three application modules (based on engineered products). At least one product is studied from each of the following

categories: household appliances; landscape products; and braking systems.

- one focus module relating to the field of Bio-Engineering.
- one school-based elective module.

In the HSC Course, students undertake the study and develop an engineering report for each of 5 modules:

- three application modules (based on engineered products). At least one product is studied from each of the following categories: civil structures; personal and public transport; and lifting devices.
- two focus modules relating to the fields of Aeronautical Engineering and Telecommunications Engineering.

### **How will this course help me in the future?**

The insight and experience associated with Engineering Studies will provide very useful background for further study of engineering at university and should be combined with the study of high levels of Mathematics and Science to be especially useful.

## **Food Technology (ATAR) 15180**

### **2 Units in each of Preliminary and HSC**

Board Developed Course

#### **What will I be doing in this course?**

The Preliminary course will develop knowledge and understanding about food nutrients and diets for optimum nutrition, the functional properties of food, safe preparation, presentation and storage of food, sensory characteristics of food, the influences on food availability and factors affecting food selection. Practical skills in planning, preparing and presenting food are integrated throughout the content areas.

The HSC course involves the study of: sectors, aspects, policies and legislation of the Australian Food Industry; production, processing, preserving, packaging, storage and distribution of food and the impact of technology; factors impacting, reasons, types, steps and marketing of food product development; nutrition incorporating diet and health in Australia and influences on nutritional status. The study of marketplace trends and their implications are also incorporated. Practical experiences in developing, preparing, experimenting and presenting food are integrated throughout the course.

#### **How will this course help me in the future?**

The study of Food Technology will give you credit transfer in some certificate and diploma courses at TAFE NSW. Career options might include dietetics, food technology, teaching, and nutrition.

## **French Beginners (ATAR) 15670** **2 Units in each of Preliminary and HSC**

Board Developed Course

Exclusions: French Continuers; French Extension  
Strict eligibility rules apply to the study of this subject. Check with your teacher or refer to Section 8.2 2.3 of the Board's ACE Manual.

#### **What will I be doing in this course?**

In the Preliminary and HSC courses, students will develop the linguistic and intercultural knowledge and understanding, and the speaking, listening, reading and writing skills to communicate in French. Topics studied through two interdependent perspectives, the personal world and the French-speaking communities; provide contexts in which students develop their communication skills in French and their knowledge and understanding of language and culture.

Students' skills in, and knowledge of French will be developed through tasks associated with a range of texts and text types, which reflect the topics. Students will also gain an insight into the culture and language of French-speaking communities through the study of a range of texts.

### **How will this course help me in the future?**

A knowledge of French provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy.

## **French Continuers (ATAR) 15680**

2 Units in each of  
Preliminary and HSC

Board Developed Course

Exclusions: French Beginners.

### **What will I be doing in this course?**

The Preliminary and HSC courses have, as their organisational focuses, themes and associated topics. Students' skills in, and knowledge of French will be developed through tasks associated with a range of texts and text types, which reflect the themes and topics. Students will also gain an insight into the culture and language of French-speaking communities through the study of a range of texts.

**The 1 Unit HSC French Extension course [15690]** is available in year 12 for students who have completed Preliminary French Continuers and are currently studying HSC French Continuers. The Extension course has a prescribed theme and related issues as its organisational focus. Students' knowledge and understanding of French

language and culture will be enhanced through accessing a variety of texts (some of which are prescribed) related to the theme and issues. Students will extend their ability to use and appreciate French as a medium for communication and creative thought and expression.

### **How will this course help me in the future?**

A knowledge of French provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

## **Geography (ATAR) 15190**

2 Units in each of Preliminary and  
HSC

Board Developed Course

### **What will I be doing in this course?**

The Preliminary course investigates biophysical and human geography and develops students' knowledge and understanding about the spatial and ecological dimensions of geography. Enquiry methodologies are used to investigate the unique characteristics of our world through fieldwork, geographical skills and the study of contemporary geographical issues.

The HSC course enables students to appreciate geographical perspectives about the contemporary world. There are specific studies about biophysical and human processes, interactions and trends. Fieldwork and a variety of case studies combine with an assessment of the geographers' contribution to understanding our environment and demonstrate the relevance of geographical study.

Key concepts incorporated across all topics are change, environment, sustainability, spatial and ecological dimensions, interaction, technology, management and cultural integration. Students complete a Senior Geography Project (SGP) in the Preliminary course and must undertake 12 hours of fieldwork in both the Preliminary and HSC courses.

### **How will this course help me in the future?**

All careers, including law, tourism and business will benefit from the study of Geography. The 21st Century is a crucial time in which people must learn to work within their planet's ability to support them. The managers of the future must think globally and act locally. Geography gives them a head start.

## **German Beginners (ATAR) 15700**

### **2 Units in each of Preliminary and HSC**

Board Developed Course

Exclusions: German Continuers; German Extension  
Strict eligibility rules apply to the study of this subject. Check with your teacher or refer to Section 8.2.2.3 of the Board's ACE Manual.

### **What will I be doing in this course?**

In the Preliminary and HSC courses, students will develop the linguistic and intercultural knowledge and understanding, and the speaking, listening, reading and writing skills to communicate in German. Topics studied through two interdependent perspectives, the personal world and the German-speaking communities; provide contexts in which students develop their communication skills in German and their knowledge and understanding of language and culture. Students' skills in, and knowledge of German will be developed through tasks associated with a range of texts and text types,

which reflect the topics. Students will also gain an insight into the culture and language of German-speaking communities through the study of a range of texts.

### **How will this course help me in the future?**

A knowledge of German provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

## **German Continuers (ATAR) 15710**

### **2 Units in each of Preliminary and HSC**

Board Developed Course  
Exclusions: German Beginners

Prerequisites: School Certificate  
German or equivalent knowledge is assumed.

### **What will I be doing in this course?**

The Preliminary and HSC courses have, as their organisational focuses, prescribed themes and related mandatory topics. Students' skills in, and knowledge of German will be developed through tasks associated with a range of texts and text types, which reflect the themes and topics. Students will also gain an insight into the culture and language of German-speaking communities through the study of a range of texts.

**The 1 Unit HSC German Extension course [15720]** is available in year 12 for students who have completed Preliminary German Continuers and are currently studying HSC German Continuers. The Extension course has a prescribed theme and related issues as its organisational focus.

Students' knowledge and understanding of German language and culture will be enhanced through accessing a variety of texts (some of which are prescribed) related to the theme and issues. Students will extend their ability to use and appreciate German as a medium for communication and creative thought and expression.

### **How will this course help me in the future?**

A knowledge of German provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

## **Industrial Technology (ATAR) 15200** **2 Units in each of Preliminary and HSC**

Board Developed Course

Exclusions: Some Industry Focus areas with similar VET Curriculum Framework streams and Content Endorsed Courses. Students can only study one course of Industrial Technology.

### **What will I be doing in this course?**

Industrial Technology will develop your knowledge and understanding of a selected industry and its related technologies highlighting the importance of design, management and production through practical experience.

Industrial Technology Stage 6 consists of project work and an Industry Study that will develop a broad range of skills and knowledge related to the industry focus areas chosen for the course. The Focus Areas include Automotive Technologies; Electronics Industries; Graphics Technologies;

Metal and Engineering Technologies; Multimedia Technologies; Timber Products and Furniture Technologies.

In the Preliminary course, students must design, develop and construct a minimum of 2 projects. Each project will include a management folio. Each project may emphasise different areas of the preliminary course content. Students also undertake the study of an individual business within a focus area industry.

In the HSC course, students design, develop and construct a Major Project with a management folio. They will also undertake a study of the overall industry related to the specific focus area.

### **How will this course help me in the future?**

Industrial Technology gives students knowledge and skills in a particular industry and increases job opportunities in a range of practical areas.

## **Information Processes and Technology** **(ATAR) 15210** **2 Units in each of Preliminary and HSC**

Board Developed Course

### **What will I be doing in this course?**

Information Processes and Technology is the study of computer based information systems. It focuses on information processes performed by these systems and the information technology that allows them to take place.

Social, ethical and non-computer procedures resulting from the processes are considered. Different types of information systems are studied. Through

project work, students will create their own information system to meet an identified need.

The Preliminary course covers: Introduction to Information Skills and Processes; Tools for Information Processes; and Developing Information Systems, where students are involved in both individual and team projects.

The HSC Course includes: Project Management; Information Systems and Databases; and Communication Systems, together with four optional strands of which two must be studied.

### How will this course help me in the future?

Students who successfully complete Information Processes and Technology will be competent, confident and discriminating users of information processes and technology. They will be well prepared to pursue further education and employment across a wide range of careers.

## Italian Beginners (ATAR) 15790

### 2 Units in each of Preliminary and HSC

Board Developed Course

Exclusions: Italian Continuers; Italian Extension  
Strict eligibility rules apply to the study of this subject. Check with your teacher or refer to Section 8.2.2.3 of the Board's ACE Manual

### What will I be doing in this course?

In the Preliminary and HSC courses, students will develop the linguistic and intercultural knowledge and understanding, and the speaking, listening, reading and writing skills to communicate in Italian. Topics studied through two interdependent

perspectives, the personal world and the Italian-speaking communities; provide contexts in which students develop their communication skills in Italian and their knowledge and understanding of language and culture.

Students' skills in, and knowledge of, Italian will be developed through tasks associated with a range of texts and text types, which reflect the topics. Students will also gain an insight into the culture and language of Italian-speaking communities through the study of a range of texts.

### How will this course help me in the future?

A knowledge of Italian provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

## Italian Continuers (ATAR)

15800

### 2 Units in each of Preliminary and HSC

Board Developed Course  
Exclusions: Italian Beginners

Prerequisites: School Certificate  
Italian or equivalent knowledge is assumed.

### What will I be doing in this course?

The Preliminary and HSC courses have, as their organisational focuses, prescribed themes and related mandatory topics. Students' skills in, and knowledge of Italian will be developed through tasks associated with a range of texts and text types, which reflect the themes and topics. Students will also gain an insight into the culture and language of Italian-speaking

communities through the study of a range of texts.

### **The 1 Unit HSC Italian Extension**

**course [15810]** is available in year 12 for students who have completed Preliminary Italian Continuers and are currently studying HSC Italian Continuers. The Extension course has a prescribed theme and related issues as its organisational focus. Students' knowledge and understanding of Italian language and culture will be enhanced through accessing a variety of texts (some of which are prescribed) related to the theme and issues. Students will extend their ability to use and appreciate Italian as a medium for communication and creative thought and expression.

#### **How will this course help me in the future?**

A knowledge of Italian provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

### **Japanese Beginners (ATAR) 15820** **2 Units in each of Preliminary and HSC**

Board Developed Course

Exclusions: Japanese Continuers; Japanese Extension; Heritage Japanese; Japanese Background Speakers.

Strict eligibility rules apply to the study of this subject. Check with your teacher or refer to Section 8.2.2.3 of the Board's ACE Manual.

### **What will I be doing in this course?**

In the Preliminary and HSC courses, students will develop the linguistic and intercultural knowledge and understanding, and the speaking, listening, reading and writing skills to communicate in Japanese. Topics studied through two interdependent perspectives, the personal world and the Japanese speaking communities; provide contexts in which students develop their communication skills in Japanese and their knowledge and understanding of language and culture.

Students' skills in, and knowledge of, Japanese will be developed through tasks associated with a range of texts and text types, which reflect the topics. Students will also gain an insight into the culture and language of Japanese-speaking communities through the study of a range of texts.

#### **How will this course help me in the future?**

A knowledge of Japanese provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

### **Japanese Continuers (ATAR) 15830** **2 Units in each of Preliminary and HSC**

Board Developed Course

Exclusions: Japanese Beginners; Heritage Japanese; Japanese Background Speakers

Prerequisites: School Certificate Japanese or equivalent knowledge is assumed.

Strict eligibility rules apply to the study of this subject. Check with your teacher or refer to Section 8.2.2.2 of the Board's ACE Manual

**What will I be doing in this course?**

The Preliminary and HSC courses have, as their organisational focuses, prescribed themes and related mandatory topics. Students' skills in, and knowledge of, Japanese will be developed through tasks associated with a range of texts and text types, which reflect the themes and topics. Students will also gain an insight into the culture and language of Japanese-speaking communities through the study of a range of texts.

**The 1 Unit HSC Japanese Extension**

**course [15850]** is available in year 12 for students who have completed Preliminary Japanese Continuers and are currently studying HSC Japanese Continuers. The Extension course has a prescribed theme and related issues as its organisational focus. Students' knowledge and understanding of Japanese language and culture will be enhanced through accessing a variety of texts (some of which are prescribed) related to the theme and issues. Students will extend their ability to use and appreciate Japanese as a medium for communication and creative thought and expression.

**How will this course help me in the future?**

A knowledge of Japanese provides students with opportunities to continue learning and for future employment both domestically and internationally in areas including commerce, tourism, hospitality and diplomacy. Learning a language helps to improve literacy skills in English.

**Heritage Language Courses** are available for Chinese, Japanese, Indonesian and Korean. Check NESA for eligibility.

**Legal Studies (ATAR)**

15220

**2 Units in each of Preliminary and HSC**

Board Developed Course

**What will I be doing in this course?**

The Preliminary course develops students' knowledge and understanding of the nature and functions of law and law-making, the development of Australian and international legal systems, the Australian constitution and law reform. It examines an individual's rights and responsibilities, how disputes are resolved and examine a contemporary issue concerning the individual and technology. Students have the opportunity to investigate issues that illustrate how the law operates in practice. This is achieved by investigating, analysing and synthesising legal information and investigating legal issues from a variety of perspectives.

The HSC course investigates the key areas of law, justice and human rights through a variety of focus studies which consider how changes in societies influence law reform. Students will study two focus studies chosen from: consumers, family, global environment, indigenous peoples, shelter, technological change, workplace, world order.

**How will this course help me in the future?**

Legal Studies will provide students with an understanding of the legal system, its principles, structures, institutions and processes. It is useful preparation for further study at TAFE NSW or university in a range of areas.

## Mathematics (ATAR) 15240

### 2 Units in each of Preliminary and HSC

Board Developed Course

**Prerequisites:** For students who intend to study the Mathematics course, it is recommended that they study the topics of *Real Numbers*, *Algebraic Techniques* and *Coordinate Geometry* as well as at least some of *Trigonometry* and *Deductive Geometry* from Stage 5.3 of *Mathematics Years 7 - 10 Syllabus*, if not all of the content.

#### What will I be doing in this course?

The course is intended to give students, who have demonstrated general competence in the skills of Stage 5 Mathematics an understanding of and competence in some further aspects of mathematics which are applicable to the real world. It has general educational merit and is also useful for concurrent studies in science and commerce. The course is a sufficient basis for further studies in mathematics as a minor discipline at tertiary level in support of courses such as the life sciences or commerce. Students, who require substantial mathematics at a tertiary level, supporting the physical sciences, computer science or engineering, should undertake the Mathematics Extension 1 course or both the Mathematics Extension 1 and Mathematics Extension 2 courses.

The Preliminary course covers: Basic arithmetic and algebra; Real functions; Trigonometric ratios; Linear functions; The quadratic polynomial and the parabola; Plane geometry - geometrical properties; Tangent to a curve and derivative of a function.

The HSC course covers: Coordinate methods in geometry; Applications of geometrical properties; Geometrical applications of differentiation; Integration; Trigonometric function; Logarithmic and exponential functions; Applications of calculus

to the physical world; Probability and Series and series applications.

#### How will this course help me in the future?

The Mathematics (2 Unit) course provides the minimum basis for entry into university courses requiring mathematics, including courses in science, engineering, computing, economics and business studies. Students who have acquired a very high level of competence in the Stage 5.3 course in Years 9 and 10 and who require substantial mathematics at a tertiary level, supporting the physical sciences, computer science or engineering, should undertake the Mathematics Extension 1 or Extension 2 courses.

## Mathematics Preliminary Extension 1 (ATAR) 15250

1 Unit in Preliminary

## Mathematics HSC Extension 1 (ATAR) 15250

1 Unit in HSC

## Mathematics HSC Extension 2 (ATAR) 15260

1 Unit in HSC

Board Developed Courses

Exclusions: General Mathematics.

**Prerequisites:** For students who intend to study the Mathematics Extension 1 course, it is recommended that they study the Stage 5.3 optional topics *Curve Sketching* and *Polynomials*, *Functions* and *Logarithms* and *Circle Geometry* of *Mathematics Years 7 - 10 Syllabus*.

Students must concurrently be studying Mathematics 2 Unit in Preliminary and HSC years.

HSC Extension 1 course is prerequisite for Extension 2 course.

### What will I be doing in these courses?

The content of the Extension courses and its depth of treatment indicate that it is intended for students who have demonstrated a mastery of the skills of Stage 5 Mathematics and are interested in the study of further skills and ideas in mathematics. The course is intended to give these students a thorough understanding of and competence in aspects of mathematics, including many which are applicable to the real world.

### The Preliminary Extension 1

**course(15250)** covers: other inequalities; further geometry; further trigonometry; angles between two lines; internal and external division of lines into given ratios; parametric representation; permutations and combinations; polynomials; harder applications of the Mathematics Preliminary course.

### The HSC Extension 1 course (15250)

covers: methods of integration; primitive of  $\sin^2 x$  and  $\cos^2 x$ ; equation; velocity and acceleration as a function of  $x$ ; projectile motion; simple harmonic motion; inverse functions and inverse trigonometric functions; induction; binomial theorem; further probability; interactive methods for numerical estimation of the roots of a polynomial equation and harder applications of Mathematics HSC course topics.

### The HSC Extension 2 course (15260)

is designed for students with a special interest in mathematics that have shown that they possess special aptitude for the subject. They must concurrently be studying Mathematics 2 Unit and HSC Extension 1.

The course offers a suitable preparation for study of mathematics at tertiary level, as well as a deeper and more extensive treatment of

certain topics than is offered in other mathematics courses.

The main topics covered are: Graphs; Complex Numbers; Conics; Integration; Volumes; Mechanics; Polynomials and harder Mathematics Extension 1 topics.

### How will this course help me in the future?

The Extension 1 course is a recommended minimum basis for further studies in mathematics as a major discipline at university and for the study of mathematics in support of the physical and engineering sciences. Although the course is sufficient for these purposes, students of outstanding mathematical ability should consider undertaking the Mathematics Extension 2 course that is excellent preparation for tertiary study in mathematics or science based courses.

## Music 1 (ATAR) 15290

### 2 Units in each of Preliminary and HSC

Board Developed Course

Exclusions: Music 2

**Prerequisites:** Music mandatory course (or equivalent). Elective Music in Year 10 is not required.

### What will I be doing in this course?

In the Preliminary and HSC courses students will study the concepts of music through the learning experiences of performance, composition, musicology and aural within the context of a range of styles, periods and genres. Students study three topics in each year of the course. Topics are chosen from a list of 21 which covers a range of styles, periods and genres.

In the HSC course, in addition to core studies in performance, composition, musicology and aural, students select three electives from any combination of performance, composition and musicology. These electives must represent each of the three topics studied in the course. Students selecting Composition electives will be required to compile a portfolio of work as part of the process of preparing a submitted work. The portfolio may be requested by the NESA to validate authorship of the submitted work.

### How will this course help me in the future?

Music 1 provides many of the skills required in the diverse fields of the Music industry. Students may progress into music courses at TAFE NSW or university with a good foundation of knowledge and practical skills. Music also provides knowledge and skills to enhance enjoyment of everyday life.

## Music 2 (ATAR) 15300

### 2 Units in each of Preliminary and HSC

Board Developed Course

Exclusions: Music 1

Prerequisites: Music Elective in Year 10 (or equivalent) is required.

### What will I be doing in this course?

In the Preliminary and HSC courses, students will study the concepts of music through the learning experiences of performance, composition, musicology and aural within the context of a range of styles, periods and genres. Students study one Mandatory Topic covering a range of content and one Additional Topic in each year of the course. In the Preliminary course, the Mandatory Topic is Music 1600–1900. In the HSC course, the Mandatory Topic is Music of the Last 25 Years (Australian focus).

In addition to core studies in performance, composition, musicology and aural, students nominate one elective study in Performance, Composition or Musicology. Students selecting Composition or Musicology electives will be required to compile a portfolio of work as part of the process of preparing a submitted work. The portfolio may be requested by the NESA to validate authorship of the submitted work.

All students will be required to develop a composition portfolio for the core composition.

### The 1 Unit HSC Music Extension course (15310)

is available in year 12 when studied concurrently with HSC course of Music 2 or at the completion of the HSC course in Music 2 for those students undertaking pathways. It builds on Music 2 and assumes a high level of music literacy and aural ability as well as advanced performance or composition or musicology skills. Students will specialise in performance or composition or musicology and will follow an individual program of study, which will be negotiated between the teacher and student.

### How will this course help me in the future?

Music 2 provides skills required in the diverse fields of the Music industry. This course is designed for the academic music student who intends to progress into tertiary music courses at university with a strong foundation of knowledge, analytical and practical skills.

**Personal Development, Health & Physical Education (PDHPE) (ATAR)**  
**15320**  
**2 Units in each of Preliminary and HSC**

Board Developed Course

**What will I be doing in this course?**

The Preliminary course examines a range of areas that underpin health and physical activity. This includes how people think about health and physical activity, the management of personal health and the basis for how the body moves. Students have the opportunity to select from a range of practical options in areas such as first aid, outdoor recreation, composing and performing, and fitness choices.

In the HSC course, students focus on major issues related to Australia's health status. They also look at factors that affect physical performance. They undertake optional study from a range of choices. This includes investigating the health of young people or of groups experiencing health inequalities. In other options, students focus on improved performance and safe participation by learning about advanced approaches to training or sports medicine concepts. There is also an opportunity to think critically about the factors that impact on sport and physical activity in Australian society.

**How will this course help me in the future?**

The course would be of great benefit to anyone wishing to take up a career in any of the sport sciences, nursing, coaching or physical education teaching.

**Photography, Video and Digital Imaging (non ATAR)**  
**1 or 2 Units in Preliminary and/or HSC**

Board Endorsed Course School Delivery

Exclusions: Projects developed for assessment in one subject are not to be used either in full or in part for assessment in any other subject.

**What will I be doing in this course?**

Photography, Video and Digital Imaging offers students the opportunity to explore contemporary artistic practices that make use of photography, video and digital imaging.

**What will I be able to do at the end of this course?**

- Gain an increasing accomplishment and independence in the representation of ideas in the fields of photography and/or video and/or digital imaging
- Understand and value how these fields of practice invite different interpretations and explanations
- Develop knowledge, skills and understanding through the making of photographs, and/or videos and/or digital images that lead to and demonstrate conceptual and technical accomplishment
- Develop knowledge, skills and understanding that lead to increasingly accomplished critical and historical investigations of photography and/or video and/or digital imaging.

**What else do I need to know about this course?**

This course can be counted as a Preliminary or HSC course. An Occupational Health and Safety Module is mandatory. Students are required to keep a diary throughout the course.

**How will this course help me in the future?**

- This course can be used as a basis to provide many skills needed in a variety of creative commercial and artistic fields.
- It provides a useful background for TAFE NSW and university courses in photography, digital imaging, fine arts and visual communications.

**Society & Culture (ATAR) 15350****2 Units in each of Preliminary and HSC**

Board Developed Course

**What will I be doing in this course?**

Society and Culture develops knowledge, understanding, skills, values and attitudes essential to an appreciation of the social world. How the interaction of persons, society, culture, environment and time shape human behaviour is a central theme of study. Students develop an understanding of research methodologies and undertake research in an area of particular interest to them. The research findings are presented for external assessment in the Personal Interest Project (PIP). The course deals with areas of interest and relevance to students.

The Preliminary course covers:

- The Social and Cultural World - the interaction between aspects of society and cultures
- Personal and Social Identity - socialisation & coming of age in a variety of social and cultural settings
- Intercultural Communication - how people in different cultures interact and communicate.

The HSC course includes a core and depth studies. The core is:

- Social and Cultural Continuity and Change - research and study of the nature, continuity and change of a selected country

- The Personal Interest Project - an individual research project.

Depth studies, two to be chosen from:

- Popular Culture - the interconnection between individuals and popular culture
- Belief Systems and Ideologies - role of belief systems in societies, cultures and personal life
- Social Inclusion and Exclusion - reflect the contemporary nature of society, focus on technology, including communication technology; focus on near future.
- Social Conformity and Non conformity - formation and influences on the attitudes and behaviours of groups, factors influencing conformity, responses to non-conformity.

**How will this course help me in the future?**

Society and Culture would be particularly valuable to students who wish to undertake further study in the humanities, social sciences, behavioural sciences, communication, business and law, but would provide useful skills for any university or TAFE NSW course.

**Software Design and Development (ATAR) 15360****2 Units in each of Preliminary and HSC**

Board Developed Course

**What will I be doing in this course?**

The Preliminary course covers:

- Concepts and Issues in the Design and Development of Software: social and ethical issues; hardware and software; software development approaches
- Introduction to Software Development: defining the problem and planning software solutions; building software

solutions; checking software solutions;  
modifying software solutions

- Developing Software Solutions.

The HSC course covers:

- Development and Impact of Software Solutions: social and ethical issues; application of software development approaches
- Software Development Cycle: defining and understanding the problem; planning and design of software solutions; implementation of software solutions; testing and evaluation of software solutions; maintenance of software solutions
- Developing a Solution Package options: evolution of programming languages or software developer's view of the hardware.

Practical experience should occupy a minimum of 20% of the Preliminary course, and a minimum of 25% of the HSC course.

This course is suited to students who have an interest in programming that is already expressing itself in the amount of time spent at the computer and some ability to solve problems through analysis and design.

Students in this course must have access to a computer and the Internet for extended periods of time outside classroom periods.

### **How will this course help me in the future?**

This course provides excellent employment opportunities, both during and after the HSC. It is a thorough introduction to further studies both at TAFE NSW and university.

## **Sport Lifestyle and Recreation Studies (SLR) (non ATAR)**

### **1 or 2 Units in Preliminary and/or HSC**

**Board Endorsed Course School Delivery**

**Exclusions:** Students studying SLR must not study modules which duplicate PDHPE modules.

### **What will I be doing in this course?**

This course enables students to further develop their understanding of and competence in a range of sport and recreational pursuits. They are encouraged to establish a lifelong commitment to being physically active and to achieving movement potential. The course provides the opportunity to specialise in areas of expertise or interest through optional modules such as: Aquatics; Athletics; First Aid; Fitness; Specific Sports; Gymnastics; Outdoor Recreation; Sports Administration; Coaching; Social Perspectives of Sport; and Healthy Lifestyle.

### **What will I be able to do at the end of this course?**

- Understand and appreciate the factors that influence health and participation in physical activity
- Analyse and implement strategies to promote health, activity and enhanced performance
- Identify the relationship between a healthy lifestyle and diet and exercise
- Be aware of anatomy and physiology
- Create and refine personal performance of movement skills and safe sporting practices.

### **How will this course help me in the future?**

Students selecting this course should be interested in sport with a desire to explore the working and functioning of the human body. This course would

be of benefit to anyone interested in coaching, sport, the fitness industry, recreational education, physical education, nursing, occupational health, physiotherapy in the workplace. Learning may also continue through ongoing life experiences as an area of personal interest.

## Textiles and Design (ATAR) 15390

### 2 Units in each of Preliminary and HSC

Board Developed Course

#### What will I be doing in this course?

The Preliminary course involves the study of design, communication techniques, manufacturing methods, fibres, yarns, fabrics and the Australian Textile Clothing, Footwear and Allied Industries. Practical experiences, experimenting and product manufacturing are integrated throughout the content areas and includes the completion of two preliminary textile projects. These projects develop each student's creative abilities and skills in designing, manipulating, experimenting and selecting appropriate fabrics for end use.

The HSC course builds upon the Preliminary course and involves the study of fabric colouration and decoration, historical design development, cultural factors that influence design and designers, contemporary designers, end-use applications of textiles, innovations and emerging technologies, appropriate textile technology and environmental sustainability, current issues and the marketplace.

This course involves the development of a Major Textiles Project, worth 50% of the HSC mark. The project is selected from one of the 5 focus areas and enables students to explore an area of interest. The project has two components: the supporting documentation and textile item/s.

#### How will this course help me in the future?

The skills and knowledge acquired are useful for a career in the fashion industry, theatrical design, the textile industry, teaching, and fibre and fabric research, craft work in textiles, interior design, advertising, marketing, commercial fabric buying and creative textile works.

## Visual Arts (ATAR) 15400

### 2 Units in each of Preliminary and HSC

Board Developed Course

Exclusions: Projects developed for assessment in one subject are not to be used either in full or in part for assessment in any other subject.

#### What will I be doing in this course?

The Preliminary course focuses on:

- the nature of practice in art making, art criticism and art history through different investigations
- the role and function of artists, artworks, the world and audiences in the art world
- the different ways the visual arts may be interpreted and how students might develop their own informed points of view
- how students develop meaning, focus and interest in their work
- building understandings over time through various investigations and working in different forms.

The HSC course requires the development of a body of work, use of a process diary and focuses on:

- how students may develop their practice in art making, art criticism, and art history
- how students may develop their own informed points of view in increasingly independent ways and use different

interpretive frameworks in their investigations

- how students may learn about the relationships between artists, art works, the world and audiences within the art world and apply these to their own investigations
- how students may further develop meaning and focus in their work.

### **How will this course help me in the future?**

The course encourages tolerance and empathy for different values and beliefs as students' participation in Visual Arts will also strengthen their problem-solving and thinking skills especially in the area of visual communication.

This course is recommended background for many university and TAFE NSW courses in Visual Arts and Design.

## **Work Studies (non ATAR)**

### **2 Units in each of Preliminary and HSC**

Content Endorsed Course

### **What will I be doing in this course?**

This course in Work Studies will assist students to:

- recognise the links between education training, work and lifestyle, and to recognise the economic and social factors that affect work opportunities
- to develop an understanding of the changing nature of work organisation and the implications for individuals and society
- undertake an extended work placement to allow for the development of specific job-related skills
- acquire general work-related knowledge, skills and attitudes, transferable across a number of occupational areas

- develop their skills in accessing work-related information, presenting themselves to potential employers and functioning effectively in the workplace.

The course has one core study and elective course modules:

- Core - My Working Life.
- Modules - There are 11 elective modules which explore issues about work and work related skills. Modules are studied for 15 to 30 hours.

### **How will this help me in the future?**

Work in all forms - paid and unpaid - plays a central role in our lives. Technological, social and economic factors are rapidly changing the nature of work and traditional patterns of work organisation. Many of the occupations in which students will work do not exist yet

## Business Services (continued)

### ASSESSMENT AND COURSE COMPLETION

#### **Competency-based Assessment:**

Students in this course work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate that they can effectively carry out tasks to industry standard. Students will be progressively assessed as 'competent' or 'not yet competent' in individual units of competency.

#### **Work placement:**

Students **must** complete a minimum of 70 hours work placement in a Business Services related industry workplace (35 hours in each of Years 11 and 12).

#### **Optional HSC examination:**

Students completing this course are eligible to sit an optional, written HSC examination. The questions will be drawn from the Mandatory Focus areas and associated Units of Competency. The purpose of the examination is to provide a mark which may be used in the calculation of the ATAR. The examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive an AQF VET qualification.

#### **N Determinations:**

Where a student has not met NESA course completion criteria, including meeting work placement requirements, they will receive an 'N' determination (course not satisfactorily completed). The course will then not count towards the HSC although units of competency achieved will still count towards an AQF VET qualification.

#### **Appeals:**

Students may lodge appeals against assessment decisions or 'N' determinations through their school or college.

**Recognition of Prior Learning:** Students may apply for Recognition of Prior Learning by submitting current evidence of their competency against relevant units of competency. If a student is assessed as competent in a unit of competency there is no need for further training for that unit.

## Construction

240 indicative hours – 2018

### QUALIFICATION: Certificate II in Construction Pathways (CPC20211)

- |   |  |
|---|--|
| <ul style="list-style-type: none"> <li>• Board Developed Course – <b>NESA Course No: 26201</b></li> <li>• Minimum mandatory work placement – 70 hours</li> <li>• Exclusions with other Board Developed Courses – nil</li> </ul> | <ul style="list-style-type: none"> <li>• A total of 4 units of credit – 2 units x 2 years (Preliminary and HSC)</li> <li>• Category B status for the Australian Tertiary Admission Rank (ATAR)</li> <li>• Consumables</li> </ul> |
|---|--|

#### Course Description:

This course provides students with the opportunity to obtain national vocational qualifications for employment in the construction industry. Students will be able to gain skills in planning and organising work, measuring and calculating, reading and interpreting plans, safe and environmentally sustainable work practices and the use of construction tools and equipment. Skills gained in this industry transfer to other industries. Occupations in the construction industry include: construction or trades assistant, builder's labourer, concreter and painter and decorator. As part of the course, all students must have a WorkCover 'white card' before they can enter a worksite.

#### HSC Course Structure:

This course consists of six core units of competency and nine elective units.

### UNITS OF COMPETENCY – Compulsory – Attempt ALL units

#### Core - Attempt all units

Unit code	Unit title	HSC indicative hours of credit
CPCCOHS2001A	Apply OHS requirements, policies and procedures in the construction industry	15
CPCCCM1012A	Work effectively and sustainably in the construction industry	25
CPCCCM1013A	Plan and organise work	10
CPCCCM1014A	Conduct workplace communication	10
CPCCCM1015A	Carry out measurements and calculations	20
CPCCCM2001A	Read and interpret plans and specifications	20

#### Electives - Attempt ALL units

CPCCCA2002B	Use carpentry tools and equipment	Group B elective	10
CPCCCA2011A	Handle carpentry materials	Group B elective	20
CPCCCM2006B	Apply basic levelling procedures	Group H elective	15
CPCCCO2013A	Carry out concreting to simple forms	Group H elective	20
CPCCJN2001A	Assemble components	Group F elective	15
CPCCJN2002B	Prepare for offsite manufacturing processes	Group F elective	10
CPCCCA2003A	Erect and dismantle formwork for footings and slabs on the ground	Group B elective	25

#### Additional examinable units delivered to meet NESA requirements

CPCCCM2005B	Use construction tools and equipment	20
CPCCWHS1001	Prepare to work safely in the construction industry	10

## Construction (continued)

### ASSESSMENT AND COURSE COMPLETION

**Competency-based Assessment:**

Students in this course, work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate that they can effectively carry out tasks to industry standard. Students will be progressively assessed as 'competent' or 'not yet competent' in individual units of competency.

**Work placement:**

Students **must** complete a minimum of 70 hours work placement in a Construction related industry workplace (35 hours in each of Years 11 and 12).

**Optional HSC examination:** Students completing this course are eligible to sit an optional, written HSC examination. The questions will be drawn from the compulsory Units of Competency. The purpose of the examination is to provide a mark which may be used in the calculation of the ATAR. The examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive an AQF VET qualification.

**N Determinations:** Where a student has not met NESA course completion criteria, including meeting work placement requirements, they will receive an 'N' determination (course not satisfactorily completed). The course will then not count towards the HSC although units of competency achieved will still count towards an AQF VET qualification.

**Appeals:** Students may lodge appeals against assessment decisions or 'N' determinations through their school or college.

**Recognition of Prior Learning:** Students may apply for Recognition of Prior Learning by submitting current evidence of their competency against relevant units of competency. If a student is assessed as competent in a unit of competency there is no need for further training for that unit.

## Entertainment Industry

240 indicative hours – 2017

QUALIFICATION: Statement of Attainment towards CUA30415 Certificate III in Live Production and Services		
<ul style="list-style-type: none"> <li>Board Developed Course – <b>NESA Course No: 26401</b></li> <li>Minimum mandatory work placement – 70 hours</li> <li>Exclusions with other Board Developed Courses - nil</li> </ul>		<ul style="list-style-type: none"> <li>A total of 4 units of credit – Preliminary and/or HSC</li> <li>Category B status for the Australian Tertiary Admission Rank (ATAR)</li> <li>Consumables</li> </ul>
<b>Course Description:</b> This course provides students with the opportunity to obtain national vocational qualifications for employment in the Entertainment industry. Students will be able to gain skills in communication, safe work practices, working with others, resolving complaints, staging and using audio, lighting and vision systems. Possible occupations include stage hand, lighting technician, set designer and sound technician.		
<b>HSC Course Structure:</b> This course consists of four core units of competency and eight elective units.		
UNITS OF COMPETENCY		
Core – Attempt all units		
Unit code	Unit title	HSC indicative hours of credit
CPCCWHS1001	Prepare to work safely in the construction industry	10
CUAIND301	Work effectively in the creative arts industry	20
CUAWHS302	Apply work health and safety practices	15
SITXCCS303	Provide service to customers	20
Electives - Attempt ALL units		
CUASOU301	Undertake live audio operations	25
CUASTA301	Assist with production operations for live performances	25
CUALGT301	Operate basic lighting	25
CUAVSS302	Operate vision systems	25
MEM18002B	Use power tools/hand held operations	20
CUASOU306	Operate sound reinforcement systems	20
CUASMT301	Work effectively backstage during performances	25
CUASTA202	Assist with bump in and bump out of shows	20

## Entertainment Industry (continued)

### ASSESSMENT AND COURSE COMPLETION

**Competency-based Assessment:**

Students in this course work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate that they can effectively carry out tasks to industry standard. Students will be progressively assessed as 'competent' or 'not yet competent' in individual units of competency.

**Work placement:**

Students must complete a minimum of 70 hours work placement in an Entertainment related industry workplace (35 hours in each of Years 11 and 12). It is permissible for up to 50% to be undertaken in other entertainment production environments intended for public performance, including school productions.

**Optional HSC examination:**

Students completing this course are eligible to sit an optional, written HSC examination. The questions will be drawn from the Mandatory Units of Competency. The purpose of the examination is to provide a mark which may be used in the calculation of the ATAR. The examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive an AQF VET qualification.

**N Determinations:**

Where a student has not met NESA course completion criteria, including meeting work placement requirements, they will receive an 'N' determination (course not satisfactorily completed). The course will then not count towards the HSC although units of competency achieved will still count towards an AQF VET qualification.

**Appeals:**

Students may lodge appeals against assessment decisions or 'N' determinations through their school or college.

**Recognition of Prior Learning:**

Students may apply for Recognition of Prior Learning by submitting current evidence of their competency against relevant units of competency. If a student is assessed as competent in a unit of competency there is no need for further training for that unit.

## Hospitality Kitchen Operations

240 indicative hours – 2018

QUALIFICATION: : Certificate II Kitchen Operations (SIT20416)		
<ul style="list-style-type: none"> <li>Board Developed Course – <b>NESA Course No: 26511</b></li> <li>Minimum mandatory work placement – 70 hours</li> <li>Exclusions with other Board Developed Courses - nil</li> </ul>		<ul style="list-style-type: none"> <li>A total of 4 units of credit – 2 units x 2 years (Preliminary &amp; HSC)</li> <li>Category B status for the Australian Tertiary Admission Rank (ATAR)</li> <li>Consumables:</li> </ul>
<p><b>Course Description:</b>            This course provides students with the opportunity to obtain national vocational qualifications for employment in the hospitality industry. Students will be able to develop generic hospitality skills in customer service, communication, environmentally sustainable work practices, hygiene and safety as well as basic skills in commercial cookery. Occupations in the hospitality industry include hotel receptionist, housekeeper, hotel manager, waiter, bar attendant, kitchen hand, cook and restaurant manager/owner.</p> <p><b>Course HSC Structure:</b>            To meet HSC course requirements, students completing the Hospitality (240 indicative hours) course with a kitchen operations and cookery focus must undertake <b>four mandatory</b> and <b>four Kitchen Operations and Cookery stream associated units of competency</b> (six core and two listed electives for Certificate II in Kitchen Operations) plus a minimum of 95 HSC indicative hours of HSC elective units of competency.</p>		
UNITS OF COMPETENCY		
Core - Attempt ALL units		
Unit code	Unit title	HSC indicative hours of credit
SITXFSA001	Use hygienic practices for food safety (Mandatory)	10
SITXWHS001	Participate in safe work practices (Mandatory)	15
BSBWOR203	Work effectively with others (Mandatory)	15
SITHCCC001	Use food preparation equipment (KO&C Stream)	20
SITHCCC005	Prepare dishes using basic methods of cookery (KO&C Stream)	40
SITHKOP001	Clean kitchen premises and equipment (KO&C Stream)	10
SITXINV002	Maintain the quality of perishable items (Elective)	5
SITHCCC011	Use cookery skills effectively (Elective)	20
Electives – Attempt ALL units		
SITHIND002	Source and use information on the hospitality industry (Mandatory)	20
SITXFSA002	Participate in safe food handling practices (KO&C Stream)	15
SITHCCC002	Prepare and present simple dishes (Elective)	20
SITHCCC006	Prepare appetisers and salads (Elective)	25
SITHCCC003	Prepare and present sandwiches (Elective)	10
Additional Units of competency delivered to meet NESA requirements		
BSBSUS201	Participate in environmentally sustainable work practices (Elective)	15

## Hospitality Kitchen Operations (continued)

### ASSESSMENT AND COURSE COMPLETION

#### **Competency-based Assessment:**

Students in this course, work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate that they can effectively carry out tasks to industry standard. Students will be progressively assessed as 'competent' or 'not yet competent' in units of competency through holistic assessment.

**Work placement:** Students **must** complete a minimum of 70 hours work placement in a Hospitality related industry workplace (35 hours in each of Years 11 and 12). For the 240-hour course only, it is permissible for up to 50% of work placement to include school and community functions where students cater for and/or service customers.

#### **N Determinations:**

Where a student has not met NESA course completion criteria they will receive an 'N' determination (course not satisfactorily completed). The course will then not count towards the HSC although units of competency achieved will still count towards an AQF VET qualification.

#### **Appeals:**

Students may lodge appeals against assessment decisions or 'N' determinations through their school or college.

#### **Recognition of Prior Learning:**

Students may apply for Recognition of Prior Learning by submitting current evidence of their competency against relevant units of competency. If a student is assessed as competent in a unit of competency there is no need for further training for that unit

## Hospitality Specialisation Food and Beverage Stream

240 indicative hours – 2018

Students may apply for Recognition of Prior Learning by submitting current evidence of their competency against relevant units of competency. If a student is assessed as competent in a unit of competency there is no need for further training for that unit.

## Metal and Engineering

240 indicative hours – 2018

### QUALIFICATION: Certificate I in Engineering (MEM10105)

- Board Developed Course – **NESA Course No:26701**
- Minimum mandatory work placement – 70 hours
- Exclusions with other Board Developed Courses – Industrial Technology – Metal & Engineering Industries Focus Area
- A total of 4 units of credit – Preliminary and/or HSC
- Category B status for the Australian Tertiary Admission Rank (ATAR)
- Consumables

#### Course Description:

This course provides students with the opportunity to obtain national vocational qualifications for employment in the manufacturing, engineering and related industries. Students will be able to gain skills in safe work practices, routine work activities, working with others, quality procedures and systems, the use of hand and power tools, technical drawing and engineering measurement. Occupations in the manufacturing, engineering and related industries include fitter, toolmaker, engineering draftsman, boat builder/repairer and mechanical, production or marine engineer.

#### HSC Course Structure:

This course comprises four core units of competency, the manufacturing, engineering and related services industries induction; Interpret technical drawing and five elective units.

### UNITS OF COMPETENCY – Compulsory – Attempt ALL units

#### Core - Attempt all units

Unit code	Unit title	HSC indicative hours of credit
<a href="#">MEM13014A</a>	Apply principles of occupational health and safety in the work environment	15
<a href="#">MEM14004A</a>	Plan to undertake a routine task	10
<a href="#">MEM15024A</a>	Apply quality procedures	5
<a href="#">MEM16007A</a>	Work with others in a manufacturing, engineering or related environment	15

#### Electives - Attempt ALL units

<a href="#">MEM12023A</a>	Perform engineering measurements	15
<a href="#">MEM12024A</a>	Perform computations	20
<a href="#">MEM15002A</a>	Apply quality systems	10
<a href="#">MEM18001C</a>	Use hand tools	20
<a href="#">MEM18002B</a>	Use power tools/hand held operations	20
<a href="#">MEM05006C</a>	Perform brazing and or silver soldering	20
<a href="#">MEM16005A</a>	Operate as a team member to conduct manufacturing, engineering or related activities	10
<a href="#">MEM11011B</a>	Undertake manual handling	5
<a href="#">MEM07032B</a>	Use workshop machines for basic operations	25
<a href="#">MEM16008A</a>	Interact with computing technology	10

#### Additional examinable units delivered to meet NESA requirements These units are not part of the CERT I qualification

Induction	Manufacturing, engineering and related services industries induction	10
<a href="#">MEM09002B</a>	Interpret technical drawing	30

## Metal and Engineering (continued)

### ASSESSMENT AND COURSE COMPLETION

#### Competency-based Assessment:

Students in this course work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate that they can effectively carry out tasks to industry standard. Students will be progressively assessed as 'competent' or 'not yet competent' in individual units of competency.

#### Work placement:

Students **must** complete a minimum of 70 hours work placement in a Metal and Engineering related industry workplace (35 hours in each of Years 11 and 12).

#### Optional HSC examination:

Students completing this course are eligible to sit an optional, written HSC examination. The questions will be drawn from the compulsory units of competency. The purpose of the examination is to provide a mark which may be used in the calculation of the ATAR. The examination is independent of the competency-based assessment undertaken during the course and has no impact on the eligibility of a student to receive an AQF VET qualification.

#### N Determinations:

Where a student has not met NESA completion criteria, including meeting work placement requirements, they will receive an 'N' determination (course not satisfactorily completed). The course will then not count towards the HSC although units of competency achieved will still count towards an AQF VET qualification.

## Sport Coaching

240 indicative hours – 2018

QUALIFICATION: : Certificate II in Sport Coaching SIS20513		
<ul style="list-style-type: none"> <li>Board Endorsed Course- <b>NESA No: 50402</b></li> <li>35 hours mandatory work placement</li> <li>No HSC Examination for this course</li> </ul>		<ul style="list-style-type: none"> <li>A total of 4 units of credit – Preliminary and/or HSC</li> <li>Does not contribute towards an Australian Tertiary Admission Rank (ATAR)</li> <li>Consumables:</li> </ul>
<p><b>Course Description:</b> This course is designed for students who wish to develop knowledge and skills to commence a career and be an effective employee in the sports education and coaching industries.</p> <p><b>HSC Course Structure:</b> This course consists of eight core units of competency and seven or eight elective units depending on specialist electives chosen.</p>		
UNITS OF COMPETENCY		
Core – attempt all units		
Unit code	Unit title	HSC indicative hours of credit
BSBWOR202A	Organise and complete daily work activities	15
HLTAID003	Provide first aid ( <b>outsourced extra \$ cost involved</b> )	20
SISSSCO101	Develop and update knowledge of coaching practices	20
SISSSCO202	Coach beginner or novice participants to develop fundamental motor skills	20
SISSSDE201	Communicate effectively with others in a sport environment	15
SISXCAI102A	Assist in preparing and conducting sport and recreation sessions	15
SISXIND211	Develop and update sport, fitness and recreation industry knowledge	20
SISXWHS101	Follow work health and safety policies	15
Electives - Attempt ALL elective units below and only ONE Specialisation Group		
SISSSPT201A	Implement sports injury prevention	15
SISXCAI101A	Provide equipment for activities	10
ICPDMT263	Access and use the Internet	10
SISSSPT303A	Conduct basic warm-up and cool-down programs	15
SISSSOF101	Develop and update officiating knowledge	10
Group 1 - Basketball Specialisation		
SISSBSB201A	Teach fundamental basketball skills	25
SISSBSB202A	Teach fundamental basketball tactics and game strategy	20
SISSBSB205	Interpret and apply the rules of basketball	15
Group 2 - Netball Specialisation OR		
SISSNTB204A	Teach foundation netball skills	25
SISSNTB203A	Participate in conditioning for netball	15
Group 3 - Athletics Specialisation OR		
SISSATH201A	Teach the fundamental skills of athletics	25
SISSSOF203	Judge competitive situations	20
Group 4 - Rugby League Specialisation OR		
SISSRGL204A	Teach the skills of Rugby League for modified games	25
SISSRGL203A	Participate in conditioning for Rugby League	15

## Sport Coaching (continued)

### ASSESSMENT AND COURSE COMPLETION

**Competency-based Assessment:** Students in this course, work to develop the competencies, skills and knowledge described by each unit of competency. To be assessed as competent a student must demonstrate that they can effectively carry out tasks to industry standard. Students will be progressively assessed as 'competent' or 'not yet competent' in units of competency through holistic assessment. This Board Endorsed Course includes courses which are accredited for the HSC and provides students with the opportunity to obtain nationally recognised vocational qualifications. This is known as dual accreditation.

**Work placement:** Students must complete a minimum of 35 hours work placement in a Sport Coaching related industry workplace over the duration of the course.

**N Determinations:** Where a student has not met NESA course completion criteria they will receive an 'N' determination (course not satisfactorily completed). The course will then not count towards the HSC although units of competency achieved will still count towards an AQF VET qualification.

**Appeals:** Students may lodge appeals against assessment decisions or 'N' determinations through their school or college.

**Recognition of Prior Learning:**

Students may apply for Recognition of Prior Learning by submitting current evidence of their competency against relevant units of competency. If a student is assessed as competent in a unit of competency there is no need for further training for that unit

# Life Skills

## Board Developed Courses

Life Skills courses are Board Developed courses that are specially designed to meet the needs of students within the context of an individual transition-planning process.

Course	Units	Year		ATAR
		11	12	
Ancient History Life Skills <b>NEW</b>	2	✓	✓	No
Citizenship and Society Life Skills	2	✓	✓	No
Community and Family Studies Life Skills	2	✓	✓	No
Creative Arts Life Skills	2	✓	✓	No
English Life Skills <b>NEW</b>	2	✓	✓	No
Human Society and its Environment Life Skills	2	✓	✓	No
Mathematics Life Skills	2	✓	✓	No
Modern History Life Skills <b>NEW</b>	2	✓	✓	No
Personal Development Health & Physical Education Life Skills	2	✓	✓	No
Science Life Skills <b>NEW</b>	2	✓	✓	No
Technology Life Skills	2	✓	✓	No
Work and Community Life Skills	2	✓	✓	No

Life Skills courses are not examined externally and do not contribute to an ATAR.

Students are also able to access discrete TAFE NSW courses.

# New Life Skills Syllabi for 2018

This section contains all the new Australian Curriculum Life Skills syllabi for courses commencing in 2018. All other board developed courses will continue to use the NSW Curriculum syllabus. New Australian Curriculum syllabi will eventually be created for all board developed courses.

## Ancient History Life Skills (non ATAR)

2 units in Year 11 and Year 12

Board Developed Course

### Rational

The Ancient History Life Skills Stage 6 Syllabus aligns with the rationale, aim, objectives and outcomes of the Ancient History Stage 6 Syllabus. The Life Skills content has been developed from the Ancient History syllabus to provide opportunities for integrated course delivery.

Before deciding that a student should undertake a course based on Life Skills outcomes and content, consideration should be given to other ways of assisting the student to engage with the regular course outcomes. This assistance may include a range of adjustments to the teaching, learning and assessment activities of the History Stage 6 curriculum.

If the adjustments do not provide a student with sufficient access to some or all of the Stage 6 outcomes, a decision can be explored for the student to undertake Life Skills outcomes and content. This decision should be made through the collaborative curriculum planning process involving the student and parent/carer and other significant individuals. School principals are responsible for the management of the collaborative curriculum planning process.

### Course Content

<b>Year 11 (120 hours)</b>  <b>Year 12 (120 hours)</b>	<b>Ancient History</b>
	Investigating Ancient History <ul style="list-style-type: none"> <li>• The Nature of Ancient History</li> <li>• Case Studies</li> </ul>
	Features of Ancient Societies
	Historical Investigation
	Cities of Vesuvius – Pompeii and Herculaneum
	Ancient Societies
	Personalities in their Times
	Historical Periods

## English Life Skills (non ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

English Life Skills is designed for students with special education needs who are unable to access the outcomes of the Stage 6 English courses even with adjustments to teaching, learning and assessment. It provides an opportunity for students to engage in personalised learning of English through the selection of outcomes and content relevant to the student's abilities, needs and interests. Students undertaking English Life Skills are eligible for the award of the Higher School Certificate.

#### Course Content

<b>Year 11 (120 hours)</b>	<b>English Life Skills</b>
	Modules may be drawn from the list provided.
<b>Year 12 (120 hours)</b>	
<b>Text selections</b>	<p>Teaching and learning opportunities which draw from a diverse range of texts can assist students to broaden and develop their own language skills.</p> <p>Opportunities may be provided for students to:</p> <ul style="list-style-type: none"> <li>• read, view, listen to and compose a wide range of texts, including print and multimodal texts.</li> </ul> <p>Where appropriate, the selection of texts should give students experience of the following:</p> <ul style="list-style-type: none"> <li>• reading, viewing, listening to and composing a wide range of texts, including literary texts written about intercultural experiences and the peoples and cultures of Asia</li> <li>• Australian texts, including texts by Aboriginal authors and those that give insights into diverse experiences of Aboriginal and/or Torres Strait Islander peoples</li> <li>• texts with a wide range of cultural, social and gender perspectives, popular and youth cultures</li> <li>• a range of types of text drawn from prose fiction, drama, poetry, nonfiction, film, media and digital texts</li> <li>• integrated modes of reading, writing, listening, speaking, viewing and representing as appropriate.</li> </ul>

## Modern History Life Skills (non ATAR)

2 units in Year 11 and Year 12

Board Developed Course

### Rational

The Modern History Life Skills Stage 6 Syllabus aligns with the rationale, aim, objectives and outcomes of the Modern History Stage 6 Syllabus. The Life Skills content has been developed from the Modern History syllabus to provide opportunities for integrated course delivery.

Before deciding that a student should undertake a course based on Life Skills outcomes and content, consideration should be given to other ways of assisting the student to engage with the regular course outcomes. This assistance may include a range of adjustments to the teaching, learning and assessment activities of the History Stage 6 curriculum.

If the adjustments do not provide a student with sufficient access to some or all of the Stage 6 outcomes, a decision can be explored for the student to undertake Life Skills outcomes and content. This decision should be made through the collaborative curriculum planning process involving the student and parent/carer and other significant individuals. School principals are responsible for the management of the collaborative curriculum planning process.

### Course Content

<b>Year 11 (120 hours)</b>  <b>Year 12 (120 hours)</b>	<b>Modern History</b>
	Investigating Modern History <ul style="list-style-type: none"> <li>• The Nature of Modern History</li> <li>• Case Studies</li> </ul>
	Historical Investigation
	The Shaping of the Modern World
	Power and Authority in the Modern World
	National Studies
	Peace and Conflict
	Change in the Modern World

## Science Life Skills (non ATAR)

### 2 units in Year 11 and Year 12

Board Developed Course

#### Rational

The Science Life Skills Stage 6 Syllabus aligns with the rationale, aim, objectives and outcomes of the Investigating Science Stage 6 Syllabus. The Life Skills content has been developed from each discipline of Science, providing opportunities for independent or integrated delivery with other Stage 6 Science courses.

Before deciding that a student should undertake a course based on Life Skills outcomes and content, consideration should be given to other ways of assisting the student to engage with the regular course outcomes. This assistance may include a range of adjustments to the teaching, learning and assessment activities of the Science Stage 6 curriculum.

If the adjustments do not provide a student with sufficient access to some or all of the Stage 6 outcomes, a decision can be explored for the student to undertake Life Skills outcomes and content. This decision should be made through the collaborative curriculum planning process involving the student and parent/carer and other significant individuals. School principals are responsible for the management of the collaborative curriculum planning process.

#### Course Content

For each course:  <b>Year 11 (120 hours)</b>  <b>Year 12 (120 hours)</b>	<b>Working Scientifically Skills</b>	<b>Course</b>	<b>Suggested modules</b>	<b>Depth studies</b>
		Investigating Science Life Skills	Cause and effect Scientific models Science and technology Science and society	
		Physical World Science Life Skills	Forces and motion Energy	
		Earth and Space Science Life Skills	Earth's resources Human impacts Earth's processes and hazards Resource management	
		Living World Science Life Skills	The structure and organisation of living things Diversity and ecosystems Heredity and genetics Disease and disorders	
		Chemical World Science Life Skills	Properties of matter Chemical reactions	

## Citizenship and Society Life Skills (non ATAR) 16630

### 2 Units for each of Preliminary and HSC

Board Developed Course

#### What will I be doing in this course?

The course focuses on the development of the knowledge and understanding, skills, values and attitudes that will enable students to participate in all aspects of Australian society.

The course emphasises practical experiences of a range of roles and responsibilities in everyday activities. Students can develop their skills in travelling around the local community and gain an understanding of the importance of balancing work and training with planned holidays. The course focuses on personal roles, rights and responsibilities in relation to the law, and emphasises what it means to be a citizen of Australia and to participate in democratic processes.

Students also develop their knowledge and understanding of social, cultural and environmental features of Australia, as well as engage with the wide range of significant people, issues and events that have influenced Australia's development. The course will also examine key events, issues and challenges facing Australia and the world today and how they may need to be addressed.

## Community and Family Studies Life Skills (non ATAR) 16697

### 2 Units for each of Preliminary and HSC

Board Developed Course

#### What will I be doing in this course?

This course focuses on developing and understanding, skills, values and attitudes across a range of post-school environments. Students develop an understanding of how to manage their physical, emotional, social/cultural, spiritual and economic

wellbeing, gaining skills in setting goals and maintaining positive relationships. They explore the nature of families and recognise and value differences in family structures and roles of family members as well as identify ways in which families can be supported by the community.

Students learn about the role of groups in society and explore what it means to be part of a group. They develop personal skills as well as skills in information and communication technology to effectively participate as a member of a group.

Students also develop an understanding and appreciation of issues and challenges for specific groups in society. They develop knowledge, understanding and skills in relation to rights and responsibilities of being an adult, in particular independent living, decision making and building support networks. Students have opportunities for productive participation in work and community environments and explore how technology impacts on life.

## Creative Arts Life Skills (non ATAR) 16650

### 2 Units for each of Preliminary and HSC

Board Developed Course

#### What will I be doing in this course?

The syllabus provides students with the opportunity to undertake one or more of 4 courses as part of their pattern of study. The syllabus contains a specific course in each of the following creative arts: Dance, Drama, Music and Visual Arts.

The course focuses on the development of an awareness and understanding in a range of art forms to suit the students' individual needs and interests. Students are offered opportunities for self-expression and personal choice, communication and the sharing of cultural views. The course contains the option to develop a course that

draws on the outcomes and content from any of the modules across the creative arts.

## Human Society and its Environment Life Skills (non ATAR) 12892

2 Units for each of Preliminary and HSC

Board Developed Course

### What will I be doing in this course?

The course emphasises practical experiences of a range of roles and responsibilities in everyday activities.

The Human Society and its Environment Life Skills Syllabus provides students with the opportunity to undertake one or more of the eight courses in each Aboriginal Studies, Business and Economics, Citizenship and Legal Studies, Geography, History, Society and Culture, Studies of Religion and the option to develop a course that draws on a range of outcomes and content across the modules.

## Mathematics Life Skills (non ATAR) 16610

2 Units for each of Preliminary and HSC

Board Developed Course

### What will I be doing in this course?

The course emphasises the application of mathematical operations to practical situations and the development of problem solving in real-life situations. Students have the opportunity to develop their practical skills in operations and calculations with money as well as the management of their personal finances. They can develop the capacity to manage personal time and schedule activities. The course also provides students with the opportunity to develop skills in the use of measurement tools and units in a range of situations.

## Personal Development, Health and Physical Education Life Skills (non ATAR) 16620

2 Units for each of Preliminary and HSC

Board Developed Course

### What will I be doing in this course?

The course emphasises effective management of a range of personal health issues that are critical to daily life. Students can develop a broad understanding of the importance of health practices that will enable them to lead healthy lifestyles. They will have the opportunity to participate in activities that will enhance their ability to engage appropriately in a range of interpersonal relationships. Students' effective participation in a range of post school environments will be supported by the development of skills in a range of safe living practices.

The course will assist students to engage in a range of leisure activities that will enhance their post-school life as well as providing students with experiences and information to enable them to engage in outdoor activities as a participant or spectator.

## Technology Life Skills (non ATAR) 16686

2 Units for each of Preliminary and HSC

Board Developed Course

### What will I be doing in this course?

This course provides students with opportunities to develop skills in accessing technology to facilitate their greater participation and independence in post-school environments.

The Technology Life Skills Syllabus provides students with the opportunity to undertake one or more of 7 courses as part of their pattern of study. The syllabus contains a specific course

in each of the following technologies: Agriculture Life Skills, Design and Technology Life Skills, Food Technology Life Skills, Industrial Technology Life Skills, Information Processes and Technology Life Skills and Textile and Design Life Skills. It also contains the option to develop a course that draws on outcomes and content from any of the modules across the technologies.

## Work and Community Life Skills (non ATAR) 16670

### 2 Units for each of Preliminary and HSC

Board Developed Course

#### **What will I be doing in this course?**

The course emphasises the development of students' understanding of the nature, patterns, variety and implications of paid and volunteer work. Students can develop a personal portfolio and will have the opportunity to clarify their expectations of workplace and community-based environments on the basis of actual experiences. They will be provided with a broad range of information, skills and experience in important aspects of the post-school environments they will encounter.

The course focuses on skills in communication, awareness of rights and responsibilities and safe and successful working practices. Opportunities will be provided for students to develop skills through graduated experiences and participation in the workplace and community-based learning environments that have been determined through the individual transition-planning process.

# Technical and Further Education (TAFE) Courses

Board Endorsed Courses have syllabuses endorsed or approved by the NESA to cater for areas of special interest. All Board Endorsed Courses count towards the Higher School Certificate and are listed on the Record of Achievement. Board Endorsed Courses do not count towards calculation of the ATAR as there is no external exam and assessment is school based.

There are several Board Endorsed Courses delivered by campuses and many delivered by TAFE NSW (known as TVET) within the Northern Beaches Secondary College. Additional TVET subjects may be available and some subjects listed are subject to Board approval.

Disclaimer: TAFE courses offered are not guaranteed to run.

## School Based Apprenticeships / Traineeships

School Based Apprenticeships and Traineeships are work based training programs that combine structured training with paid work and lead to nationally recognized qualifications. School Based Apprenticeships and Traineeships count for a minimum towards HSC units.

**School Based Apprenticeships** give students the opportunity to commence a trade whilst still at school. School Based Apprentices complete the first stage of their apprenticeship by the end of their HSC year.

**School Based Trainees** complete their traineeship by the end of their HSC year.

**Industry Based Learning** is a NESA Endorsed Course attached to the on-the-job component and can count for an extra 2 units in the Preliminary year and the HSC year.

### School Based Apprenticeships

A typical example of an apprenticeship program is:

- Paid work - usually one day per week and during school holidays.
- Training - usually one day per week in the trade class at TAFE NSW or a private provider.

Common School Based Apprenticeships may include:

- Automotive
- Commercial Cookery
- Plumbing
- Beauty
- Electrotechnology
- Carpentry
- Hairdressing

There are many more apprenticeships available across a range of industry areas. Students must source their own employer.

### School Based Traineeships

A typical example of a Traineeship program is:

- Paid work - usually one day per week and during school holidays.
- Minimum of 100 days paid work over 2 years.
- Training - usually half a day a week.

Common School Based Traineeship may include:

- Automotive Vehicle Body
- Property Real Estate
- Sport and Recreation
- Hotel Management
- Retail
- Tourism

There are many qualifications available across a range of industry areas. For success in a Traineeship Program it is advisable to source a suitable employer. For further information [visit www.sbatinnsw.info](http://www.sbatinnsw.info)

## Automotive - Mechanical 240 hours (ATAR Cat B)

A total of 4 units of credit – Year 11 and/or Year 12

Board Developed Course TAFE NSW Delivery

With this course you will develop the skills and knowledge required to perform service and preparatory work in the automotive industry. Learn to identify, select and use tools and equipment; understand customer relations and communication skills.

Take it up a gear and learn to locate, identify and understand the operation of major systems and components in automotive vehicles.

Come out with knowledge on systems and vehicle components including engines, petrol and diesel fuel, electrical, suspension and steering, exhaust and transmission and driveline.

AUTOMOTIVE – VEHECLE MECHANICS	
NATIONAL CODE	AUR207016
DURATION	120 hours = 3 Terms in Year 11 or Year 12, or 240 hours = 7 terms over Years 11 and 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year 240 hours = 2 units x 2 years
HSC EXAM	Yes – optional at the completion of 240 hours study.
ATAR	Yes – after 240 hour course and if optional HSC exam is completed (Category B)
QUALIFICATION	120 hours = TAFE Transcript of Academic Record 240 hours = Certificate II in Automotive Vocational Preparation and/or TAFE transcript of Academic Record
WORK PLACEMENT	Yes, it's mandatory and we'll organise it for you. 35 hours per 2 units of study.
LOCATION	H, NB

## Electrotechnology Computer Assembly and Repair (non ATAR)

### 2 Units in Year 11 and/or Year 12

Board Developed Course TAFE NSW Delivery

Are you good with your hands, have good eyesight and able to do precise and detailed work?

This course is for students who wish to advance their knowledge and understanding of computer hardware, simple servicing techniques and peripheral devices. Students will gain hands-on training in well-equipped laboratories and learn to disassemble and re-assemble a computer, set up operating systems, diagnose basic computer fault conditions and understand the use and function of peripheral devices.

Once you complete this course you could achieve an apprenticeship in the Electrotechnology (Electrical/Electronics) area.

ELECTROTECHNOLOGY – COMPUTER ASSEMBLY AND REPAIR	
NATIONAL CODE	UEE20511
DURATION	120 hours = 3 Terms in Year 11 or Year 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year
HSC EXAM	No
ATAR	No as this course is only 120 hours (3 Terms)
QUALIFICATION	TAFE Transcript of Academic Record and/ or Statement of competencies achieved toward the Certificate II in Computer Assembly and Repair (UEE20511)
WORK PLACEMENT	Yes, it's mandatory and we'll organise it for you. 35 hours per 2 units of study.
LOCATION	M

## Electrotechnology Electrical (ATAR Cat B)

2 Units in Year 11 and/or Year 12

Board Developed Course TAFE NSW Delivery

In this course you will complete a number of core units that are contained in the electrotechnology trades course. This means study time after school is reduced.

You will learn to measure voltage and current, what a circuit diagram means, how circuit components behave, what they do, and how to perform testing of electrical equipment.

Plus, you will also install and maintain electrical equipment for domestic, commercial and industrial environments.

Current skills will also be taught in applying environmental and sustainable procedures in the energy sector. Career opportunities include Electrician, Electrical Technician or Engineer.

ELECTROTECHNOLOGY – ELECTRICAL	
NATIONAL CODE	UEE22011
DURATION	120 hours = 3 Terms in Year 11 or Year 12, or 240 hours = 7 terms over Years 11 and 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year 240 hours = 2 units x 2 years
HSC EXAM	Yes – optional at the completion of 240 hours study.
ATAR	Yes – after 240 hour course and if optional HSC exam is completed (Category B)
QUALIFICATION	120 hours = TAFE Transcript of Academic Record 240 hours = Certificate II in Electrotechnology (Career Start) (UEE22011) and/or TAFE transcript of Academic Record
WORK PLACEMENT	Yes, it's mandatory and we'll organise it for you. 35 hours per 2 units of study.
LOCATION	H, M, NB

## Financial Services - Accounts Administration 240 hours (ATAR Cat B)

### 2 Units in each of Year 11 and Year 12

Board Developed Course TAFE NSW Delivery

If you aspire to work in the areas of accounting, finance, banking, insurance or investment, this course will provide you with a solid foundation in basic accounting techniques.

You will gain useful skills for university courses in commerce, economics and business.

In Year 12, you will be eligible to apply for Accounting Cadetships with accounting firms, including the top-tier four, via the Institute of Chartered Accountants Cadetship Program.

FINANCIAL SERVICES – ACCOUNTS ADMINISTRATION	
NATIONAL CODE	FNS30315
DURATION	120 hours = 3 Terms in Year 11 or 12, or 240 hours = 7 terms over Years 11 and 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year 240 hours = 2 units x 2 years
HSC EXAM	Yes – optional at the completion of 240 hours study.
ATAR	Yes – after 240 hour course and if optional HSC exam is completed (Category B)
QUALIFICATION	120 = TAFE Transcript of Academic Record 240 hours = TAFE Transcript of Academic Record toward Certificate III in Accounts Administration (FNS30315)
WORK PLACEMENT	Yes, it's mandatory and we'll organise it for you. 35 hours per 2 units of study.
LOCATION	H, M, NB, SL

## Human Services – Health Services Assistance 240 hours (ATAR Cat B)

2 Units in each of Year 11 and Year 12

Board Developed Course TAFE NSW Delivery

On successful completion of this course, you will be able to work as a Health Services Assistant in a hospital or aged care facility.

Learn nursing knowledge and skills such as infection control, first aid, anatomy and physiology as well as going out on workplace clinical experience.

Our campuses have partnerships with the Sydney Adventist Hospital (The SAN), North Shore Hospital and Northern Sydney Local Health District for work placement.

Students will be required to adhere to vaccination, uniform and hygiene standards to comply with Work Health and Safety and undertake a Criminal Record Check, and complete a Volunteer/Student Declaration. Speak to your Careers Advisor for further advice.

HUMAN SERVICES – HEALTH SERVICE ASSISTANCE	
NATIONAL CODE	HLT33115
DURATION	240 hours = 7 Terms over Year 11 and 12. Year 11 entry will only be accepted.
UNITS TOWARDS YOUR HSC	240 hours = 2 units x 2 years
HSC EXAM	Yes
ATAR	Yes – after 240 hour course and if optional HSC exam is completed (Category B)
QUALIFICATION	240 hours = Statement of Attainment towards Certificate III in Health Services Assistance (HLT32512)
WORK PLACEMENT	Yes, it's mandatory and we'll organise it for you. 70 hours in a Health Care Facility.
LOCATION	M, NB, SL

## Information and Digital Technology – Digital Animation

### 2 Units in Year 11 and/or Year 12

Board Developed Course TAFE NSW Delivery

This course is an introduction to interactive design using 2D and 3D animation techniques.

Students will develop skills in animation, storyboarding, sound production, design and sequencing to create interactive digital products. Career pathways could include animator, visual effects designer, interactive media developer.

INFORMATION AND DIGITAL TECHNOLOGY – DIGITAL ANIMATION	
NATIONAL CODE	ICT30115
DURATION	120 hours = 3 Terms in Year 11 or 12, or 240 hours = 7 terms over Years 11 and 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year 240 hours = 2 units x 2 years
HSC EXAM	Yes – optional at the completion of 240 hours study.
ATAR	Yes – after 240 hour course and if optional HSC exam is completed (Category B)

QUALIFICATION	TAFE Transcript of Academic Record towards Certificate III in Plumbing (CPC32413)
WORK PLACEMENT	No
LOCATION	M, ST

## Property Services (Agency)

### 2 Units in Year 11 and/or Year 12

Board Endorsed Course TAFE NSW Delivery

Agents, sales and property management staff are required by law to complete a real estate course that includes agency operations, property management and marketing.

Successful completion of this 240 hour course will enable you to satisfy the educational requirements to apply for a Certificate of Registration issued by the NSW Office of Fair Trading to work in the real estate profession. Other criteria also apply.

This course is a great head start into the growing Real Estate Industry.

PROPERTY SERVICES (AGENCY)	
NATIONAL CODE	CPP30211
DURATION	120 hours = 3 terms in Year 11 or 12, or 240 hours = 7 Terms in Year 11 and Year 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year 240 = 2 units x 2 years at Northern Beaches campus OR 4 terms + Online delivery in 1 year at Meadowbank campus
HSC EXAM	No
ATAR	No
QUALIFICATION	120 hours = TAFE Transcript of Academic Record towards Certificate III in Property Services (Agency) (CPP30211). 240 hours = Certificate III in Property Services (Agency) (CPP30211) or Academic Record. Includes Certificate of Registration units. The NSW Office of Fair Trading will issue the actual Certificate of Registration.
WORK PLACEMENT	No
LOCATION	M, NB

## Screen and Media - Animation

### 2 Units in Year 11 or Year 12

Board Endorsed Course TAFE NSW Delivery

You will start with hand drawing techniques, and then move to computer based image generation and manipulation using such industry standard programs as Autodesk Maya, Cinema 4D product, Adobe Flash, Adobe Photoshop and Adobe After-Effects.

This course focuses on your artistic talent and not the complex technicalities of programming.

SCREEN AND MEDIA - ANIMATION	
NATIONAL CODE	CUA31015
DURATION	120 hours = 3 Terms in Year 11 or Year 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year
HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards Certificate III in Screen and Media (CUA31015)
WORK PLACEMENT	No
LOCATION	H, SL

## Screen and Media – Film and Radio

### 2 Units in Year 11 and/or Year 12

Board Endorsed Course TAFE NSW Delivery

Are you interested in the workings of live radio? Develop your understanding of the screen industry and working in film and production.

Learn to present on camera and radio, acquire skills to operate video camera and editing equipment, operate industry equipment to record and edit sound and understand the use of digital hardware and applications.

You will acquire an overview of how the film and radio industry operates and understand the significance of cultural diversity in the media.

SCREEN AND MEDIA – FILM AND RADIO	
NATIONAL CODE	CUA31015
DURATION	120 hours = 3 terms in Year 11 or 12, or 240 hours = 7 terms over Years 11 and 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year 240 hours = 2 units x 2 years
HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards Certificate III in Screen and Media (CUA31015)
WORK PLACEMENT	No
LOCATION	B

## Screen and Media – Film and Television

### 2 Units in Year 11 and/or Year 12

Board Endorsed Course TAFE NSW Delivery

In this course, you will acquire an overview of how the film and television industry operates and understand the significance of cultural diversity in the media.

You will acquire skills to operate video camera and editing equipment, operate industry equipment to record and edit sound and understand the use of digital hardware and applications.

SCREEN AND MEDIA – FILM AND TELEVISION	
NATIONAL CODE	CUA31015
DURATION	120 hours = 3 terms in Year 11 or 12, or 240 hours = 3 terms in Year 11 and 3 terms in Year 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year 240 hours = 2 units x 2 years This course will only be offered in the second year if there is a viable class size.
HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards Certificate III in Screen and Media (CUA31015)
WORK PLACEMENT	No
LOCATION	SL

## Screen and Media – Media

### 2 Units in Year 11 or Year 12

Board Endorsed Course TAFE NSW Delivery

This is the ideal foundation course if you want to work creatively in digital media.

Students who undertake this course will gain practical skills and industry knowledge in the media industry. Camera techniques, community radio program making/presentation, non-linear video editing, documentary and short film production are all part of your training to get started in media.

SCREEN AND MEDIA – MEDIA	
NATIONAL CODE	CUA20215
DURATION	120 hours = 3 terms in Year 11 or 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year
HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards Certificate II in Creative Industries (Media) CUA20215
WORK PLACEMENT	No
LOCATION	M, SL

## Screen and Media – Multimedia

### 2 Units in Year 11 or Year 12

Board Endorsed Course TAFE NSW Delivery

You will start with hand drawing techniques, then move to computer based image generation and manipulation using such industry standard programs as Autodesk Maya, Autodesk Mudbox, Adobe Flash, Adobe Photoshop and Adobe After-Effects.

This course focuses on your artistic talent and not the complex technicalities of programming.

SCREEN AND MEDIA – MULTIMEDIA	
NATIONAL CODE	CUA31015
DURATION	120 hours = 3 terms in Year 11 or 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year
HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards Certificate III in Screen and Media (CUA31015)
WORK PLACEMENT	No
LOCATION	H

## Sport, Fitness and Recreation

### 2 Units in Year 11 or Year 12

Board Endorsed Course TAFE NSW Delivery

This course is perfect for students who are enthusiastic about sports and recreation but are yet to commit to a specific job role. You will experience theory and practical classes in:

- Exercise Prescription
- Athlete Development
- Outdoor Recreation.

Continuing with your study in this area may lead to careers as a:

- Personal Trainer
- Outdoor Recreation Guide
- Sports Coach or Player Manager
- Events and Facilities Manager.

SPORT, FITNESS AND RECREATION	
NATIONAL CODE	SIS20313
DURATION	120 hours = 3 terms in Year 11 or 12
UNITS TOWARDS YOUR HSC	120 hours = 2 units x 1 year
HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards Certificate II in Sport and Recreation (SIS20313)
WORK PLACEMENT	Yes, integrated
LOCATION	M, NB

## Visual Arts and Contemporary Crafts - Photography

### 2 Units in Year 11 or Year 12

Board Endorsed Course TAFE NSW Delivery

This course will provide you with creative skills including using digital photographic equipment to create, edit and produce quality photographic work. At some campuses students will also work with black and white film.

VISUAL ARTS AND CONTEMPORARY CRAFTS - PHOTOGRAPHY	
NATIONAL CODE	CUA31115
DURATION	120 hours = 2 units x 1 year
UNITS TOWARDS YOUR HSC	2 units x 1 year
HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards Certificate III in Visual Arts (CUA31115)
WORK PLACEMENT	No
LOCATION	H, M, NB

## Visual Arts, Craft and Design – Design Fundamentals

### 2 Units in Year 11 and/or Year 12

Board Endorsed Course TAFE NSW Delivery

Consider the possibilities of a career in the design industry!

Learn the basic principles and fundamental skills of design whilst developing an understanding of the design process and how it can be applied to various design areas.

Skills developed will include:

- creatively problem solve by observing, questioning, analysing and evaluating a range of design problems
- communicate effectively using appropriate design techniques and technology.
- produce drawings and use computer technology to explore and present design concepts.
- learn skills and develop a portfolio for future study or career pathways into the design industry.

VISUAL ARTS, CRAFT AND DESIGN – DESIGN FUNDAMENTALS	
NATIONAL CODE	CUA30715
DURATION	120 hours = 3 Terms in Year 11 or 12 240 hours = 3 Terms in Year 11 and 3 Terms in Year 12

HSC EXAM	No
ATAR	No
QUALIFICATION	TAFE Transcript of Academic Record towards the Certificate III in Design Fundamentals (CUA30715)
WORK PLACEMENT	No
LOCATION	B, H

## Visual Arts, Craft and Design – Design Fundamentals (Fashion)

### 2 Units in Year 11 and/or Year 12

#### Board Endorsed Course TAFE NSW Delivery

This course is for students interested in learning the basic principles and fundamentals skills specific to the fashion industry. It is designed for students with a strong creative flair for creating fashion clothing.

The course is exactly the same as the Design Fundamentals Course except that all assignments and assessments are based around fashion. There are no sewing machine activities, however, there are mannequins that are designed and dressed by the students.

Learn skills that may be used to prepare a portfolio for future entry to competitive mainstream design courses.

VISUAL ARTS, CRAFT AND DESIGN – DESIGN FUNDAMENTALS (FASHION)	
NATIONAL CODE	CUA30715

QUALIFICATION	TAFE Transcript of Academic Record towards Certificate III in Design Fundamentals (CUV30715)
WORK PLACEMENT	No
LOCATION	H

# Career Planning Guide

The Career Planning Guide section has been designed to help you make an informed and thoughtful decision about the subjects and pattern of study that will undertake in your senior years. It is supported by the expert careers advice and guidance that is available at each campus of the Northern Beaches Secondary College.

The Career Planning Guide will help you to make wise decisions about your future, and will help to facilitate a seamless transition from school to your post school destination. It is meant as a guide only, to help you identify subjects and subject combinations that are most useful for the career area that you might be considering.

Disclaimer: The information in the Career Planning Guide is based on the current UAC Guide, TAFE NSW Handbook, private provider websites, UAC University Entry Requirements Year 10 Booklet, HSC TAFE Credit Transfer website, and HSC subject information from the NESA. Individuals must check carefully specific course requirements, credit transfer arrangements and advice from individual institutions and employers.

## Introduction

Subject choice should be primarily made on the basis of your interests, abilities and career plans. It is important that you think about your interests and strengths before you begin to choose your subjects. If you choose subjects that you like and are good at, you should enjoy studying them, do well in them and learn skills that you can use later in life. If you already have a career path in mind, then your choice of subjects can be designed to maximise credit transfer and perhaps fast track you into your career. If you are unsure of your career plans, then choosing subjects that you like and are good at may open up options for you and help you to decide on a suitable career path.

Different subject combinations are appropriate for different students, depending on the level of training that you are prepared to undertake. It is possible to “start at the bottom” in the career structure and work your way up, or to continue your education beyond school and enter the career on a higher level. The Guide demonstrates that progression from one career level to another is always possible. For example, a Certificate gained at school may give credit transfer to a diploma at TAFE NSW, which may give credit transfer to a degree at university.

While universities often assume a certain level of achievement in specified HSC courses (assumed knowledge), there are very few courses which specify subjects that must be studied at school (prerequisites). Some universities offer bridging or introductory courses that enable people who do not have the recognised level of assumed knowledge to achieve the recommended HSC standard. You must carefully research entry requirements and university recommendations that are relevant to you.

An ATAR is not needed if you are planning to progress to TAFE NSW after your HSC, as acceptance into a TAFE NSW course is based on an application process that considers several criteria including HSC performance in related subjects, demonstrated interest in the subject and work-related experience.

Private providers have their own criteria for entry which varies between each provider. You will need to check each one individually. They require the payment of fees which are not able to be paid via Fee Help.

For direct entry into the workforce after the HSC, it is more important for you to be able to demonstrate a good attitude to work, skills, or a willingness to learn skills, in the related area, and experience in the work place.

The study of dual accredited Vocational Education and Training (VET) courses, delivered at school or TAFE NSW, will give you the opportunity to fast track into careers in a related industry. VET courses contribute units to your HSC and contribute to a nationally recognised Australian Qualification Framework (AQF) award. Workplace learning is an integral part of VET. It may even be possible for you to complete a part time Traineeship in your chosen industry while you are still at school.

If you have clear career goals you should ensure that your subject selection satisfies all prerequisites, maximises your credit transfer and teaches you appropriate skills for your chosen vocation. If you have no clear career goals you should try to ensure that you receive a good general education, gain skills useful in a range of career areas and keep open your options for further study.

## What is credit transfer?

The Australian Qualifications Framework (AQF) is a single, national, coherent framework for qualifications from the Higher School Certificate (HSC) to a Doctoral Degree. It links together all these qualifications and promotes lifelong learning, encouraging continual upgrading of knowledge and skills.

The Northern Beaches Secondary College is committed to providing pathways between the school, the vocational education sector and the higher education sector.

Credit Transfer is a form of recognition based on a formal arrangement between educational institutions. Credit Transfer is not automatic and must be applied for at the time of enrolment at TAFE or university.

Credit Transfer arrangements negotiated between the NSW NESA and TAFE NSW enable you to get credit for HSC studies you have already completed. It applies to a range of HSC courses such as English, Business Studies and Biology, and includes Vocational Education and Training (VET) courses such as Accounting, Information Technology and Hospitality.

School Sector	Vocational Education and Training Sector: TAFE and private providers	Higher Education Sector: University
		Doctoral
		Masters
		Graduate Diploma
		Bachelor Degree
		Advanced Diploma
		Diploma
	Certificate IV	
Certificate III	Certificate III	
Certificate II	Certificate II	
Certificate I	Certificate I	
HSC		

For details of credit transfer see [www.det.nsw.edu.au/hsctafe](http://www.det.nsw.edu.au/hsctafe) and individual university web sites such as: [www.uts.edu.au](http://www.uts.edu.au)

## Examples of career pathways

The tables in the Career Planning Guide demonstrate clearly that you can enter careers at several different levels. After the Higher School Certificate (HSC), it is possible to start on a career path by:

- going straight into the workforce
- continuing in education at TAFE NSW or private providers
- seeking professional qualifications from university.

# Applied Science

Year 11 and Year 12 Program:

Compulsory Subjects	Suggested Subjects	
	School Delivered	TAFE NSW Delivered
English Advanced or English Standard or English as an Additional Language or Dialect or English Studies	Biology Chemistry Earth & Environmental Science Engineering Studies Food Technology Geography Information Processes & Technology Information Technology Languages Mathematics Mathematics Standard Mathematics Preliminary Extension 1 Mathematics HSC Extension 1 and 2 Metal & Engineering PDHPE Physics Software Design & Development	Automotive (Multiple Selections) Aviation - Aircraft Operations Community Recreation (Sports & Recreation - Fitness) Computer Aided Drafting (CAD) Electrotechnology/Electrical Information Technology Specialisation (Web Design) Outdoor Recreation
<ul style="list-style-type: none"> <li>• Other subjects may be chosen from any area of the curriculum to suit individual interests and abilities.</li> <li>• Selection for university study requires an ATAR that is calculated from 10 units of eligible subjects.</li> <li>• The study of a science or related course at university usually assumes HSC study of Mathematics or higher. It is recommended that science related subjects are studied for the HSC, with Chemistry and Physics being the most useful depending on the area of specialisation. Bridging courses and introductory subjects are sometimes available for students with insufficient background in Mathematics or Science.</li> <li>• Careers in science usually assume skills in the use of technology.</li> </ul>		

## Career Pathways:

There are many private providers which offer alternate diploma and degree courses that are often run in partnership with universities. Refer to specific providers for information or ask your Careers Adviser.		

# Creative and Performing Arts

## Preliminary and HSC Program:

Compulsory Subjects	Suggested Subjects	
	School Delivered	TAFE NSW Delivered
English Advanced or English Standard or English as an Additional Language or Dialect or English Studies	Dance Design & Technology Drama English HSC Extension 1 and 2 English Preliminary Extension 1 Entertainment Industry Information Technology Languages Music 1 or 2 Photography, Video and Digital Imaging Textiles & Design Visual Arts	Beauty - Retail Makeup and Skin Care Beauty - Nail Technology Computer Aided Drafting (CAD) Design (Multiple Selections) Hairdressing Information Technology Specialisation (Web Design) Screen & Media (Film and Radio) Screen & Media (Film and Television) Screen & Media (Multimedia) Visual Arts, Craft & Design (Art Visual) Visual Arts, Craft & Design (Digital Photography)

- Other subjects may be chosen from any area of the curriculum to suit individual interests and abilities.
- Selection for university study requires a ATAR that is calculated from 10 units of eligible subjects.
- University study of Creative Arts areas usually assumes the HSC study of Visual Arts and/or Design and Technology and/or Textiles and Design. University study assumes good communication skills so the study of English is important. Additional selection criteria may apply.
- University study of Performing Arts (depending on specialist area chosen) assumes the HSC study of Music (often Music 2 and extension Music), or Drama or Dance. Entry to Performing Arts courses is usually based on an audition and/or interview.
- There are some areas of creative and performing arts that can be studied at TAFE NSW. Many HSC subjects, such as Visual Arts, Design and Technology, Textiles and Design and Entertainment will give direct credit into these courses. Successful completion of TAFE NSW delivered HSC subjects gives advanced standing in the study of related TAFE certificates.

# Education, Psychology, Social and Community Services

## Preliminary and HSC Program:

Compulsory Subjects	Suggested Subjects	
	School Delivered	TAFE NSW Delivered
English Advanced or English Standard or English as an Additional Language or Dialect or English Studies	Ancient History Biology Community and Family Studies English Extensions 1 and 2 Geography History Extension Information Technology Languages Legal Studies Mathematics Maths General Modern History Music 1 or 2 PDHPE Society & Culture Visual Arts	Community Services - Introduction (Children's Services) Community Services - Introduction (Welfare) Community Recreation (Sports & Recreation - Fitness) Human Services (Allied Health Assistance) Human Services (Health Services Assistance) Outdoor Recreation

- Other subjects may be chosen from any area of the curriculum to suit individual interests and abilities.
- Selection for university study requires an ATAR that is calculated from 10 units of eligible subjects.
- Careers in teaching require a university degree. The subjects recommended for HSC study are directly related to the area of specialisation chosen. Primary teachers employed in government schools must have studied any 2 units of English and any 2 units of Mathematics.
- Professional Psychology requires 6 years of study at university. No previous HSC study is assumed, but Mathematics is recommended. When Psychology is studied in a science degree, a science background is assumed. Psychology can be included as a major in a number of degrees.
- The university study of social work or social sciences assumes no particular HSC study. Subjects should be chosen to suit interests and abilities.
- A satisfactory level of achievement in English is required for entry to diploma level courses in Community Services (Children's Services) at TAFE NSW.
- Successful completion of TAFE NSW delivered HSC subjects gives advanced standing in related TAFE NSW certificates.

- Other subjects may be chosen from any area of the curriculum to suit individual interests and abilities.
- Selection for university study requires an ATAR that is calculated from 10 units of eligible subjects.
- The study of Engineering or a related course at university assumes HSC study of Mathematics (not General Maths) and at least Preliminary and HSC Mathematics Extension 1. The most useful HSC science subjects are Physics and Chemistry. Bridging courses and introductory subjects are sometimes available for students with insufficient background in Maths or Science.
- Careers in Engineering assume skills in the use of technology.
- Maximum credit into Engineering, Automotive and Electrical trades at TAFE NSW would result from the study of the more practical VET courses that have a work place learning component, such as Metal & Engineering, or related TAFE NSW delivered HSC subjects such as CAD.

## Career Pathways:

Employment	TAFE NSW	University
<b>New Apprenticeships</b> Aircraft Maintenance Automotive Trades Boat Building Drafting Electrical (Fitting, Instruments, Lift, Mechanic) Electronic (Communications, Office Equip.) Engineering (Mechanical, Electrical/Electronic, Fabrication) Laboratory Assistant Manufacturing Pattern Making/Moulding Plumbing Refrigeration Mechanic	<b>Advanced Diploma, Diploma and Certificates in:</b> Civil/Structural Engineering Electrical Technology Engineering Environmental Technology & Practice Fire Technology Geographic Information Systems Information Technology Laboratory Technology Manufacturing Technology Systems Marine Engineering Mechanical Engineering Mechanical Technology/Engineering Mechatronics Naval Architecture/Boat & Ship Building Survey Drafting Surveying/Land & Engineering Telecommunications Engineering	<b>Bachelor degrees in:</b> Applied Science (Physics, Chemistry, Biological Sciences) Computer Science Engineering Innovation Environmental Science Engineering - Civil, Mechanical, Electrical, Mining, Aeronautical, Environmental, Materials Science, Mechatronics, Computer, Telecommunications, Petroleum, Bioprocess, Geotechnical, Construction Management, Biomedical, Bioinformatics, Chemical, Industrial Chemistry, Survey & Spacial, Photovoltaics and Solar Energy, Renewable Energy, Software Information Technology Surveying
Refer to current TAFE NSW and University Handbooks, UAC Guide, UAC Year 10 Entry Requirement booklet and HSC TAFE Credit Transfer Guide for further job and course information.		
There are many private providers which offer alternate diploma and degree courses that are often run in partnership with universities. Refer to specific providers for information or ask your Careers Adviser.		

# Health Sciences, Sport and Recreation

Preliminary and HSC Program:

Compulsory Subjects	Suggested Subjects	
	School Delivered	TAFE NSW Delivered
English Advanced or English Standard or English as an Additional Language or Dialect or English Studies	Biology Business Services Business Studies Chemistry Community and Family Studies Food Technology Hospitality Information Technology Languages Mathematics Mathematics Standard PDHPE Physics Senior Science Sport Lifestyle & Recreation	Community Services - Introduction (Children's Services) Community Services - Introduction (Welfare) Community Recreation - (Sports & Recreation - Fitness) Human Services (Allied Health Assistance) Human Services (Health Services Assistance) Outdoor Recreation Tourism and Events

- Other subjects may be chosen from any area of the curriculum to suit individual interests and abilities.
- Selection for university study requires an ATAR that is calculated from 10 units of eligible subjects.
- A number of health related courses at university are science based and assume or recommend HSC study of Mathematics (not General Maths). The most useful HSC science subject is Chemistry, but Biology, Physics and PDHPE will be useful.
- The study of nursing at university recommends a background in science (any of Chemistry, Biology or Physics), and any 2 units of Mathematics. PDHPE can be substituted for a science and provides a very good background for the study of Nursing.
- University study of Human Movement, Exercise and Sport Management assumes the HSC study of Mathematics (not General Maths) and recommends some background in science. University study assumes good communication skills, so the study of English is important.
- Science based careers usually assume skills in the use of technology.

## Career Pathways:

Employment	TAFE NSW	University
<b>New Apprenticeships:</b> Aboriginal and TSI Health Care Support Services Health Support Services Nursing Assistant Sport & Recreation Sporting Operations  <b>Jobs:</b> Assistant in Nursing Clinical Coder Community Services (Aged Care, Disabilities) Dental Assistant Dietary Aide Food Preparation/Kitchen Assistant Sports Official (Referee, Coach)	<b>Advanced Diploma, Diploma and Certificates in:</b> Applied Science (Medical, Pathology, Biology) Community Services (Alcohol & Drugs, Children's Services, Welfare, Disabilities, Youth, Aged Care) Dental Assisting Enrolled Nursing/Assistant in Nursing Fitness Instructing Food & Health Support Services Health Office Procedures Nutrition and Dietary Practices Outdoor Recreation Sport (Coaching, Development, Officiating) Sport (Massage Therapy) Sport & Recreation (Leadership, Administration, Coaching, Fitness, Recreation, Management). # Information Technology

## Preliminary and HSC Program:

Compulsory Subjects	Suggested Subjects	
	School Delivered	TAFE NSW Delivered
English Advanced or English Standard or English as an Additional Language or Dialect or English Studies	Business Services Business Studies Economics English Preliminary Extension 1 English HSC Extension 1 and 2 Information Processes and Technology Information Technology Languages Mathematics or General Mathematics Mathematics Preliminary Extension 1 Mathematics HSC Extension 1 and 2 Physics Software Design & Development Visual Art	Business Services Specialisation Computer Aided Drafting (CAD) Computer Hardware Servicing Design (Multiple Selections) Electrotechnology/Electrical Information Technology Specialisation (Web Design) Marketing Visual Arts, Craft & Design (Art Visual)

- Other subjects may be chosen from any area of the curriculum to suit individual interests and abilities.
- Selection for university study requires an ATAR that is calculated from 10 units of eligible subjects.

There is no limit to the number of Information Technology/Computing subjects that you can undertake in your HSC.

- University study of Information Technology or Computing assumes the study of at least HSC Mathematics (not General Maths) and while study of HSC computer subjects is not assumed, it is obviously an advantage for students to have as much experience with computers as possible.
- Maximum credit transfer into a TAFE NSW diploma level course in IT can be gained by undertaking the Information Technology 240 hour course at school and supplementing it with Web Design.

Successful completion of a TAFE NSW Diploma may provide significant credit transfer to related university degrees.
